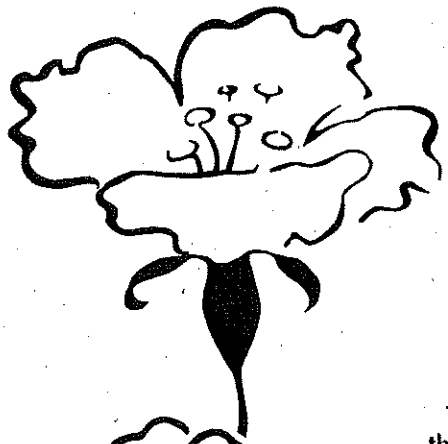
1995

LUNENBURG

TOWN REPORT



TURKEY HILLS

They are gone now, wild birds once so plentiful
they named our geography, this aviary community.
Gone too are those in North Cemetery,
whole walking paths bring peace and silence amid the old stones.

We know where we are.
We mark place by our own houses and
by the blue Stillman silos and McMillan greys
standing watch to the south,
the crest of pines in Lanni's fields,
water tower blues, the backyard railroad car,
and steep, green grasses of the cherry hills
leading up upward to hope.

After traveling and coming up the rise to town center,
one knows the curves, turns, hills and rhythm of these roads
are as familiar as the shape one's foot leaves in wet sand.
We take in our landscape and let its colors and shapes touch us.

Community is a sense of place,
of towers, buildings pointing upward, churches and spires
but also rooted, grounded, connected.
It is the faces of those we know and love
and those with whom history is shared
that also gives the hues and tones to our world.
A project, a fair, a playground, an eagle's house, barn-raising,
together in the dark watching a school play,
at the soccer field, at the dance, and in the church choir
we share the burden, catch the joy and build community.
We know who we are.

At night, the clock tower on the town hall glows with white light
a beacon calling us home.
The many ladders hung so high tell time
of many hands joining in renewal and repair.

In this day's work, we color the landscape of these Turkey Hills for our children.

Carol Picard
written for Town Meeting May, 1995

MEMORIAM

GEORGE "CHICK" G. MUNYON, JR.

1935-1995

Chick was born in Clinton, Massachusetts on March 11, 1935. He graduated from Leominster High School in 1953 and moved to Lunenburg in 1955, when he married his wife Betty Caswell. He came to work for the Town of Lunenburg in 1961. He worked for the Highway Department for 33 years, with more than 25 years of service as the Highway Superintendent. He also served the Town of Lunenburg as a Reserve Police Officer for 29 years. Chick was a life member and past president of the Worcester County Highway Association and a life member of the Board of Directors of the Massachusetts Highway Association. On August 8, 1995 Chick celebrated his 40th wedding anniversary with his wife Betty. His loyalty and dedication to the Town of Lunenburg over his 33 years of employment will not be forgotten. It is people like "Chick" who helped make Lunenburg what it is today.

MEMORIAM

LEO M. "BUCKY" PADULA

1924-1995

Bucky, a life long resident of Lunenburg, was born and brought up on the family farm which is located on Leominster-Shirley Road. He graduated from Lunenburg High School, served in the navy during World War II, and graduated from the University of Connecticut. Truly a man of the soil, after graduating from college he ran the family dairy farm and, during the same period, served the Lunenburg post office as a rural carrier. For the last thirty years he worked in the family tractor agency and raised beef cattle as an avocation. Bucky coached Lunenburg little league for many years. He and his wife Mary were married for fifty years and during all of that time Bucky graciously hosted myriad local, state and national office holders including governors, congressmen and presidents, while the Padula home served as campaign headquarters for many a political aspirant. He loved this town and his country and served them well.

BOARD OF SELECTMEN

The wheels of Town government have churned for another year and 1995 has shown the Town progressing through a number of changes. Many of which would not have been accomplished without the dedication and cooperation of various Town officers, departments, boards, committees, and commissions.

The capping and final closure of the Sanitary Landfill was completed in the fall of 1995. According to the Department of Environmental Protection, the Town is responsible for maintenance and testing of the site for the next thirty years.

The sewering of the Town has progressed slowly and the Town was the recipient of a 5,600 foot sewer line along Massachusetts Avenue in the Spring of 1995. A number of property owners along this stretch of pipe also tied on to the sewer line throughout the year. The Board of Selectmen/Sewer Commissioners re-opened discussions with the City of Fitchburg on extending sewer services to the Summer Street area of Town and construction in this area is expected to take place in the Spring of 1996. The Annual Town Meeting in May 1995 voted to appropriate $165,000 for the development of a Facilities Plan, this engineering and planning study will determine town-wide wastewater management needs and solution for the next 20 years.

The Town Hall renovation/restoration work has been ongoing through most of 1995 and the installation of wheelchair lift to the second floor conference room was begun late in the fall. It is anticipated that the lift will be up and running by Spring of 1996.

In conclusion, the Board would like to thank the many individuals who work for the Town or who volunteer their time and commitment on behalf of the Town by serving on many boards, committees, and commissions. Without their hard work and dedication the successes we have had during 1995 would not have been possible.

BUILDING INSPECTOR/ZONING OFFICIAL

The Building Inspector's office is located on the second floor of the Town Hall with regular hours Monday through Friday 8:00 A.M. until 4:00 P.M. Roger Williams, the Building Inspector, is available in the mornings for calls and questions; inspections are made by appointment only.

Building activity in Lunenburg has rapidly risen in 1995 especially in residential districts. A total of 267 permits were issued in 1995. Fifty-one new homes were built as well as a two unit condo, reflecting an increase of 22 new homes since 1994.

Residents should be aware that Massachusetts Law requires that all persons, partnerships and corporations who bid or perform residential contracting (reconstruction, alterations, additions etc.) for work exceeding $1000.00 be registered with the Commonwealth. This office will enforce this provision, however, you should ask your contractor about his/her registration. Please contact this office with any questions you may have about this requirement or call for any other information you may need on Zoning requirements or Building Code issues.

CABLE ADVISORY COMMITTEE

This is the third year that I have had the privilege of serving as chairman of the Lunenburg Cable Advisory Committee (CAC) and reporting its efforts. The CAC consists of four members who are appointed annually by the Board of Selectman. The CAC advises the Board of Selectman on issues regarding the Town's cable telecommunications policy. As one can well imagine, given the rapid change of technology, it is necessary to constantly keep abreast of the trends in the telecommunications industry.

The CAC meets monthly. If you have any issues regarding cable service (or lack thereof) in the Town of Lunenburg, please feel free to either come to the CAC's monthly meetings (time and location posted at the town hall) or contact any member of the committee. Pat O' Malley is the CAC's secretary, Lance May is the committee's longest serving member and Ed Dextraze is the CAC's former chairman. Please feel free to contact any member of the committee.

I'd like to take this opportunity to thank the members of the CAC for their efforts and the Board of Selectman for their support. In addition, I would especially like to thank the citizens of the town who provided their comments to the CAC. Citizen participation is the cornerstone of creating a telecommunications policy that helps to address the needs of all citizens of the Town of Lunenburg, whether or not they are a cable subscriber.

During the last year, a number of issues were addressed by the CAC. The current license that confers on Cablevision Inc., the right to do business in the Town of Lunenburg expires this year. The CAC continues to negotiate with Cablevision Inc. to create a renewal agreement that is in the best interest of the citizens of the Town of Lunenburg. The CAC is striving to provide as much cable service to the community as possible, including a data network and access channel for the Town.

The Mulpus Road area of the Town was finally wired for cable service. The citizens of Mulpus Road should be congratulated for their public participation. They were able to bring cable service to that area of the Town by the shear will of their collected efforts.

As I mentioned previously we are currently negotiating with Cablevision Inc. to renew their license. I urge all citizens to let their wishes be known so we can make intelligent and informed decisions. Now is time for all citizens to let their voices be heard to shape the telecommunication policy that will carry the Town of Lunenburg into the next century.

Leon Weaver, Chairman
Lunenburg Cable Advisory Committee

CAPITAL PLANNING COMMITTEE

The Capital Planning Committee was mandated by Town Meeting and is representative by members, Steven deBettencourt of the Board of Selectmen, Richard Runtagh, Finance Committee, Diane Dellicarpini, School Committee, Marion M. Benson, Planning Board and Elaine Murphy member at large from the Citizenry.

Capital Planning Committee is preparing the FY'97 Capital Plan for the Town Meeting. The Committee seeks capital requests from all Boards, Departments and Commissions. Each request requires documentation according to the Criteria for Capital Spending. They are mandates, safety, needs and available funding. The major components of the plan are expenditures, improvements and maintenance.

The Finance Committee estimates revenues available for capital spending. The plan must fit into this financial framework. The present policy of the Capital Planning Committee, Finance Committee and the Board of Selectmen is to work within available revenues and avoid borrowing. Exempt borrowing (extended borrowing) shall be reserved for only large long lasting Expenditures or Improvements.

The Capital Planning Committee holds several consensus meetings of Boards, Commissions and Departments to assess the requests by priority through consensus of the governmental body and to ascertain that each request meet the Criteria. The Board of Selectmen manages many service departments and participates in the request review as to the direction of their departmental requirements. This is a long and tedious process. Priorities are established and some very important items are postponed because of lack of funding.

The Committee's final report is based on a broad scope. This enables the citizenry to receive some assurance that all issues are attended to in proportion. This years plan will reflect expenditures that will assist toward the continuing accreditation of the high school, address the safety issues of proper safety equipment for the Fire Department, recommended purchasing of equipment for services, upgrading building heating systems, roofing and repairs, replacing roads with new drainage, updating and maintaining the governmental computer system, and providing purchases toward the preservation of records.

The Committee is projecting a Long Range Capital Plan. Major items are being prioritized to be purchased in segments from two to five years increments. A Vehicle Rotation Plan is being refined to plan equipment purchases over evenly spaced time so replacement is economically feasible and moneys are not being wasted with costly repairs and maintenance.

Work is being done with the help of the Town's Treasurer and Accountant offices to produce a Debt Structure Plan and Financial Monitoring System. The Committee is working with the Planning Board on a Long Range Space Needs Study which will also include a component for the recreational and activities space needs in the Community.

This Committee is aware of the need and responsibility to communicate with the citizenry. Newspaper articles and Public Access TV will be presenting the Capital Plan. The Community needs to know the Capital Cost that is part of providing safety services, education, governmental services, cultural and amenities to maintain the quality of life that reflects the character of Lunenburg. Each Fiscal Year Plan does not show the real needs but only the portion that, by priority, should be addressed now. The future work is this Committee is to project all of the needs and work on the methodology to fulfill these needs in a feasible and economically procedure. This Committee is committed to spending appropriately on Capital items or as one member said, "to do more with less". This may require the willingness to do some things differently.

CEMETERY DEPARTMENT

The Cemetery Commissioners and the Superintendent meet regularly throughout the year to discuss Cemetery business. A United States Flag was donated to the department in the memory of Donald Stone, a WWII Veteran. Various projects are underway, such as a new cremation area in the North Cemetery.

The following is a list of persons who were buried this year:

CENTRAL MASSACHUSETTS MOSQUITO CONTROL PROJECT

The Central Massachusetts Mosquito Control Project (CMMCP) currently provides its services to 28 cities and towns throughout Middlesex and Worcester Counties. The Town of Dracut became a member of the CMMCP as of July 1, 1995. We welcome them and look forward to providing our services.

The project's headquarters is located at 111 Otis Street, Northboro MA. Tours of the headquarters or visits to field work sites may be arranged by calling the office in advance.

The CMMCP practices Integrated Mosquito Management (IMM), blending state of the art methods and techniques with expertise, experience, and scientific research to provide our member communities with modern, environmentally sound, cost effective mosquito control.

The Mosquito Awareness program which we offer to elementary schools in our district has become very popular. Project staff meet with students and teachers to discuss mosquito biology, mosquito habitat, and control procedures. Much of the presentation is directed towards what the children and their families can do to prevent mosquito larvae are included with the presentation, and are left in the classrooms so that students can watch them develop. Slides, videos, handouts and coloring books help to make this an interesting program.

As part of our effort to reduce the need for pesticides we continue to expand our water management program. By cleaning clogged and overgrown waterways, mosquito breeding can be reduced, wetlands are restored, and water quality is improved. Last winter we acquired and refurbished a wood chipper to be used by our water management division. A new dump truck and utility trailer were purchased this fall to replace our 1975 truck and trailer.

Bti mosquito larvacide is used to treat areas where mosquito larvae are found. We routinely check known breeding sites, but also encourage the public to notify us of any areas they suspect could breed mosquitoes. Our field crews will investigate all such sites and treat if needed.

Our goal is to handle all mosquito problems with water management or larviciding but we recognize that there are times when adult mosquito spraying is the only viable solution. In such cases residential and recreational areas are treated with either handheld or pick-up truck mounted sprayers.

The project's surveillance program monitors adult mosquito and larval population density and is the backbone for prescribing various control techniques. Rain gauges are set out and data collected by our surveillance crews in an effort to predict when mosquito breeding will occur.

The project's video "Working for You" is available to anyone interested in learning about mosquito control and the services provided by the Central Massachusetts Mosquito Control Project.

CONSERVATION COMMISSION

The Lunenburg Conservation Commission is an appointed body of volunteers who have been empowered by the Commonwealth to administer the Wetlands Protection Act regulations. There are 7 members all of whom live in Lunenburg. The Commission conducts regularly scheduled meetings on the first and third Wednesday of each month for the purpose of:

- → assisting applicants with the forms used with the Massachusetts Wetlands Protection Act, CH. 131, S. 40 and the Town of Lunenburg General Wetlands Protection Bylaw;
- → conducting public hearings as required for filing Requests for Determination of Applicability, Notices of Intent and Abbreviated Notices of Intent;
- → holding work sessions to manage Commission owned property;
- → conducting planning sessions to address conservation concerns;
- → holding informational meetings with interested residents; and
- → supervising enforcement of the public's interest as set forth in the Massachusetts and Lunenburg wetland regulations.

In 1995, the Commission issued 40 Orders of Conditions, 10 Determinations of Applicability, 5 Certificates of Compliance, and 4 Enforcement Orders. These documents were the result of numerous on-site inspections.

Some of the significant activities that the Commission undertook during 1995 were:

- → issuing and monitoring Orders of Conditions for the Flathill housing project and the capping of the town landfill;
- → participating in Department of Environmental Protection wetland delineation workshops and the annual meeting of the Massachusetts Association of Conservation Commissions;
- → marking of a snowmobile trail on, and construction of a new bridge in, the Cowdry property;
- → clearing a hiking trail in Proctor Park;
- → conducting a mushroom identification walk on conservation land;
- → remarking the trail on the Clark's Hill land;
- → installing 12 bluebird houses on local pasture land;
- → assisting and energizing efforts to preserve open space and wildlife habitats; and the certification of 5 vernal pools in the town.

With the report of one additional rare wetland wildlife species (Blandings Turtle) in 1995, there are now 7 current, documented occurrences of animals on the Natural Heritage Program's List of Rare and Endangered Wildlife in Lunenburg. The Commission encourages reports of sightings of rare or uncommon wildlife and plants from residents.

Thomas Lawson, a Commission member for 11 years, is researching the background of the Lunenburg Conservation Commission with the hope that his findings will result in a report on the Commission's history.

The Commission would like to thank Valerie Wilcox of the Plastics Museum (Leominster) and Michael Skeban of American Polymers, Inc. (Worcester) for enabling the members to make plastic trail markers. These are being used to mark the commonly used trails on conservation land.

Russell (Rusty) Harvey (having served 10 years), Robert Leupold (having served 14 years), and Betsy Weaver (having served 5 years) retired from the Commission. Their countless contributions over their many years of service have made Lunenburg a better place to live. Also, the Commission members want to note that Katrina Proctor left the Commission and wish to thank her for her work as

secretary. The Commission welcomes Richard Bursch, Scott Perry and David Womble as members, and Julia McKinney as the new secretary. The Commission's acknowledgments would not be complete without recognizing the invaluable input Brian Butler, Associate Member, has given in aiding the preservation and protection of Lunenburg wetlands and open spaces and the associated flora and fauna.

COUNCIL ON AGING

The Council on Aging (COA) ended 1995 celebrating the announcement on December 5th of a $701,914 grant award to the Town of Lunenburg from the Executive Office of Communities and Development (EOCD) Community Development Block Grant (CDBG) program for construction of an addition to the Eagle House Senior Center. This will be the largest public facility building project in Lunenburg, exclusive of schools, since 1976 when an addition was made to the Police/Fire Station. The present senior center was the result of a private effort begun in 1988 and completed in 1990, using donated funds, materials, and services.

The CDBG award climaxed over a year of preparation led by COA Chairman Jean Hobbs, COA staff and the Eagle House Building Committee. Friends of the Eagle House, Inc. contributed $1,875 for preliminary plans and estimates and have launched a fund drive to furnish and equip the addition.

Plans call for an approximate 4,000 square foot one story addition, and the grant will also cover a new septic system as well as the services of an architect for final plans, the hiring of a general contractor, clerk of the works and grant administrator. It is anticipated the addition will include a large gathering space for activities, handicapped accessible COA offices, more efficient space for the operation of the meal site and distribution of Meals on Wheels, space to improve, enhance, and expand services to the over 1,500 elders in Lunenburg and to prepare for the projected rise in the number of elders needing community based services. In order to meet all requirements for construction of a public facility, it will probably be late summer before construction can begin.

In Fiscal Year 1995 services provided by the Council on Aging through staff and volunteers at the Eagle House continued to expand. Units of service to elders totaled 27,246, with an unduplicated count of 742, which represents service to 48% of residents over the age of 60, a 12% increase over FY'94. In addition, 606 units of service was provided to non-elders utilizing services at the Eagle House for handicapped transportation, general information, participation in intergenerational programs, and flu clinics for a 57% increase.

Transportation, congregate and home delivered meals, recreational and social activities continue to lead in number of participants. However, equally important are increases in the other services and programs offered such as requests for information, referrals to and from other agencies, outreach, health benefits counseling, health clinics, fitness and exercise, intergenerational and community education and legal assistance.

These statistics are part of the annual report to the Executive Office of Elder Affairs. EOEA is responsible for the distribution to Councils on Aging of Formula Grant Funds, based on the number of persons over age 60 in a community per the 1990 Federal Census. Lunenburg's allocation for FY'95 was $4,695, paying the salary of a part time Outreach Worker, postage to mail the newsletter three times a year, mileage reimbursement for Meals on Wheels volunteer drivers, professional dues, fees and mileage for attendance by staff and Council members at workshops and conferences. The COA was also the recipient of a $750 incentive grant from EOEA to conduct an intergenerational program which combined a fourth grade class at the Passios School with a group of elders for eight sessions on "Aging, A Lifelong Process". Lunenburg Education Advancement Fund (LEAF) awarded the COA

a grant using computers at the elementary school for a five session introductory computer class for 12 local elders taught by Lela Male, Lunenburg High School Technology Coordinator.

This year, at the annual Volunteer Recognition Reception at the Eagle House, 97 volunteers were honored for contributing a total of 4,459 hours, valued at $39,472. Lillian Robinson was honored on her retirement after many years of service as a Meals on Wheels volunteer, with fellow MOW driver Arnold Rill and multi-service volunteer Olive Coburn applauded for having given the most hours during the past year. Time contributed by volunteers at the Eagle House, whether it be for one hour or for over 800 a year, is most essential to elder services in Lunenburg. The COA could not function at the level it does without this valuable asset. As older volunteers retire, new volunteers are always welcome. Those interested in volunteering are asked to call Eagle House, at 582-4166.

Members of the Council on Aging in 1995 were Jean Hobbs, Nicholas Rimpas, Raymond DeLisle, Paul Doherty, Jane Doyle, Eleanor Gay, Frieda Jacobs, Judith Jennison, Beatrice Stepton, Frances Therrien, and Agnes Withington. Mr. DeLisle resigned as he moved from the community and was replaced in October by the Rev. Leslie H. Johnson. Director Jeanne DeBruin heads a staff consisting of Secretary Nancy Rimpas, Outreach Worker Nancy Sullivan, Van Drivers Gerald Beloin, Raymond Stone, and Harry Hager, Custodian Norman Winchester, Meal Site Manager Priscilla Merranzino, and Elder Service Corps Worker Virginia Blair.

EAGLE HOUSE BUILDING COMMITTEE

The Eagle House Building Committee was established by the Board of Selectmen in January 1995 to prepare preliminary plans for a proposed addition to the Eagle House Senior Center in conjunction with an application to be submitted to the Executive Office of Communities and Development (E.O.C.D.) Community Development Block Grant program.

Chairman of the Council on Aging Jean Hobbs was chosen as chairman of the committee, with Eagle House Director Jeanne DeBruin named as secretary. Other members of the committee were Selectman Michael J. Sauvageau, Planning Board Chairman Marion Benson; President of Friends of the Eagle House, Inc., Frederick Hobbs; Friendly Senior Representative Kenneth Miller, Rodney Brown and Chester Pliska as members-at-large representing the senior population. Joelle Purvis was added to the committee in May as a community representative. The passing of Mr. Pliska in late December has created a vacancy on the committee and his presence and expertise will be missed. The Board of Selectmen is expected to fill this vacancy, as well as to appoint a representative of the Finance Committee.

A public hearing was held in March to solicit comments from the community, with 62 people in attendance. The town paid for surveying of the Eagle House site on Memorial Drive and for determination of lot lines. The architectural firm of Haynes, Lieneck, and Smith of Ashby was hired to draft preliminary plans and cost estimates for the proposed addition with the Friends of the Eagle House, Inc. donating $1,875 to pay for these services. The grant application to E.O.C.D. was prepared for submission to the E.O.C.D. by Jean Hobbs with input from board members using statistical material from the town, Central Massachusetts Agency on Aging, Executive Office of Elder Affairs, and similar resources. Announcement of the awarding of $701,914 to the town for an addition on the senior center was received by the Board of Selectmen on December 5, 1995, and formally announced at that time. The money will cover all phases of the project, including a new septic system and the hiring of necessary personnel. Certain clerical functions will be performed by existing town employees. The grant will be administered in part under the direction of Executive Secretary Laura Dunbar and the Board of Selectmen, with the hiring of a Grant Administrator to cover compliance with the prevailing wage law and certain grant requirements.

Scheduled for early 1995 is a grant orientation meeting followed by a training workshop presented by staff from E.O.C.D. to be attended by the Executive Secretary and Building Committee representatives. The Building Committee working through the Council on Aging will have the responsibility for screening of all personnel to be hired and making recommendations to the Board of Selectmen after consultation with Town Counsel.

The first step will be placing legal advertisements for the selection of an architect to prepare final plans and detailed cost estimates. Once plans are accepted, bids will be sought for hiring of a general contractor and a clerk of the works. It is anticipated, if the schedule allows, construction will commence in late summer or early fall.

HISTORICAL COMMISSION

The Lunenburg Historical Commission was re-activated in April of 1995. The Commission's primary goal is to preserve the unique records of the Town. A partial inventory of the records this year identifies over 300 documents. The earliest of these records start in 1719, nine years before Lunenburg was erected. The inventory included the Lunenburg Proprietors' Records (two volumes) which provide metes and bounds describing the original grants of land to the first settlers of Lunenburg.

Town records must be made available to any U.S. citizen upon request. Unlimited and uncontrolled access to 275 year old documents, however, will soon destroy them. Public Law 66 defines the disposal schedule for all public records as well as mandating which records must be preserved. Historical Commissions are responsible to develop plans to preserve the non-disposable records which towns have created.

Proper preservation of records will assure that the original information is always available. Purchase and proper use of the microfilm\microfische reader printer requested in this years town warrant will reduce the need to handle our most precious documents. Many records have been put on microfilm and microfiche, but many more must be microfilmed, or otherwise replicated, to preserve the originals. Currently, the Town Hall vault houses these valuable records.

The most likely threat to the records is fire, as witnessed by the loss of several town halls since the 1950's in Massachusetts. If such a fire should engulf the Town Hall, it is likely that all records would be destroyed. While this would be a substantial loss, the safety of personnel working in and using the building is of greater concern.

The most feasible means of preventing such a disaster would be the installation of a sprinkler system. Such a system would minimize damage in case of fire and provide protection to people-as well as the valuable records.

In order to meet our responsibilities as a Commission we have needs which must be met. Basically, we need a work space and a vault (which meets state standards) for the protection of archives. We intend to request these in the near future.

INSPECTOR OF PLUMBING & GAS FITTING

A total of 250 inspections were made to complete the issuance of a Building Permit and approval for occupancy. It should be noted that most plumbing and gas installations require two to four inspections before the building permit can be signed. This is to see that the plumbing and gas installation are in compliance with the Massachusetts Plumbing and Gas code.

A list of the plumbing inspections that were made to the completed requirements of the Massachusetts Code are as follows:

New Homes	45
Remodeled Homes	40
Commercial Buildings	5
Gas Installations:	
Gas Appliances	40
Commercial	2
New Home	3
Mandatory chemically analyzed soldered joints tested	5

Added attention was given to the Wal*Mart project. Inspections had to be made on Saturday as requested by the contractor, so the inspection procedure would not delay the project. Four meetings were held with Peter Davis, Clerk of the Works, Project Manager and Contractors to resolve various problems.

I wish to express my sincere thanks to the people of Lunenburg and Town Officials for their valuable support. Please feel free to contact me at (508) 582-6187 for information or assistance regarding plumbing and gas fitting information.

Respectfully submitted,

Thomas Mortis, Plumbing Inspector

HIGHWAY DEPARTMENT

NOTICE

DUE TO THE DEPARTMENT OF ENVIRONMENTAL'S STRINGENT REGULATIONS, EFFECTIVE IMMEDIATELY THE TOWN OF LUNENBURG WILL NO LONGER BE ACCEPTING WASTE OIL.

LABOR

Labor includes the payroll for the Highway Superintendent, workers, and clerical.

Appropriated	$243,208
Expenditures	$227,360
Balance	$ 15,847

TOWN BARN MAINTENANCE

This account covers the cost of maintaining the Highway Garage, and includes: lights, heat, telephone, janitorial, maintenance supplies, stationery supplies, postage, office equipment and special building maintenance.

Appropriated	$ 13,000
Expenditures	$ 14,343
Balance	<$ 1,343>

GENERAL HIGHWAY MAINTENANCE

This account includes the cost of patching, paving, crack filling, drainage, supplies, and equipment for road repairs.

Appropriated	$ 90,015
Expenditures	$ 88,878
Balance	$ 1,137

TRAFFIC SIGNS & DEVICES

This account consists of the cost of operating and repairs to the mechanized caution flashing lights, line painting, and supplies for making signs.

Appropriated	$ 9,000
Expenditures	$ 8,735
Balance	$ 265

HIGHWAY OVERTIME

These expenses occur when there is an emergency call after regular working hours during the week, weekends, and holidays.

Appropriated	$ 2,000
Expenditures	$ 758
Balance	$ 1,242

TREE REMOVAL

The highway department has limited equipment to work with concerning the taking down of trees (chain saws). Therefore, when a tree is in the power lines or tall enough to require a bucket truck to get to them we have to hire private contractors to take care of the situation.

Appropriated	$ 3,000
Expenditures	$ 2,996
Balance	$ 4

SNOW REMOVAL

Appropriated	$ 65,000
Expenditures	$ 91,520
Balance	<$ 26,520>

LANDFILL

This account is necessary for the maintenance of the roadway in and around the landfill, sand screening operation; generating sand suitable for winter road application from town property and maintaining topography on conservation land adjacent to landfill site.

Appropriated	$ 4,000
Expenditures	$ 3,997
Balance	$ 3

VEHICLE MAINTENANCE

This budget covers fuel, parts, supplies, and preventative maintenance for every town owned vehicle; mainly highway, police, fire, and school departments. On occasion we do repair work for other departments as well. Included in this appropriation is the salaries of a mechanic and a mechanics assistant.

Appropriated	$131,660
Expenditures	$131,346
Balance	$ 314

HIGHWAY DEPARTMENT VEHICLES\EQUIPMENT AS OF MARCH 1996

Year	Make & Model	Mileage	Year	Make & Model	Mileage
1989	Chevrolet Pick-up	66811	1966	Comp Compressors	
1995	Mack-10 WH Dump	7969	1985	GMC Dump	
1986	GMC One-Ton	N/A	1992	Stetco CB Cleaner	
1989	Mack Dump	39770	1984	Roller	
1985	GMC Dump	N/A	1986	Paver

1978	GMC Dump	62160	1975	Mack 10 Wheel	N/A
1979	International Dump		1968	Mack 10 Wheel Dump	355492
1987	Mich Loader		1992	Swensen Spreaders (2)	
1996	Ford Tractor		1993	Swensen Spreader	
1977	ASPL Chipper		1994	Flink Spreaders (2)	
1994	Elgin Sweeper	1041	1995	Flink Spreader	
1969	MASE Mower		1992	Homemade Spreader	
1979	Lord S-Plant		1980	Torwell Spreader	

NOTES OF INTEREST:

September 1995 marked the passing of our longtime Highway Superintendent of Streets, George G. (Chick) Munyon, Jr. "Chick" started with the highway department as a truck driver\laborer and worked his way up the ranks to Highway Superintendent and also Landfill Superintendent. He was also a Reserve Patrolman. Mr. Munyon dedicated over thirty-three years of service to the Town of Lunenburg.

In May of 1995, the Board of Selectmen appointed John M. Rodriquenz, "Jack" to the position of Superintendent of Streets. The highway department would like you to join us in welcoming "Jack" and wishing him well in his endeavors to serve the Town of Lunenburg.

MONTACHUSETT REGIONAL VOCATIONAL TECHNICAL SCHOOL

Superintendent-Director Stratos G. Dukakis is pleased to report that Monty Tech began its twenty-fifth year of operation the week of August 28. At that time, school officials were wrapping up preparations for the start-up of the new Cosmetology program (the school's twenty-first), introducing a new student incentive program, and entering the final phase of the 10-year re-accreditation process. On-going advances in the school's technology continue to remain high on the Superintendent's list of priorities.

The 1995-96 school year officially got under way Tuesday, August 29, with freshmen and new upperclassmen reporting to school for the first time. Members of the Class of 1999 include students from the 17 communities comprising the Monty Tech Regional School District, as well as School Choice students. Returning upperclassmen attended classes the following day. Enrollment figures are in line with recent years.

School official are planning a yearlong celebration to commemorate the twenty-fifth anniversary of Monty Tech's opening. A committee is spearheading plans for the numerous events and activities scheduled to take place throughout the year. The festivities officially got under way September 14, with the First Annual Scholarship Golf Tournament. Held at Westminster Country Club, the fund-raiser netted approximately $7,000 which is earmarked for scholarships and other student activities. The celebration is expected to culminate in the spring with a gala weekend event.

A new incentive program, known as "Bulldog Pride," was established this year and has been very well received by both staff and students. The program is modeled after one established by a voc-tech school in Butler, PA, that has been very successful. It aims to increase student attendance, decrease discipline problems and create a better school atmosphere. Throughout the school year, students are rewarded with a variety of prizes, such as VCRs, televisions, cassette players, and gift certificates. A grand prize drawing at the end of the year will include five previously owned cars that have been refurbished by the Automotive Technology and Auto Body trades. By all accounts, the program is a huge success.

This year, Monty Tech entered the second and final phase of its re-accreditation process. In order to maintain accreditation by the New England Association of Schools and Colleges, Inc. (NEASC), schools are required to undergo a renew process every 10 years. Monty Tech completed the required self-evaluation phase last year. The second and final phase was conducted in October, when a committee comprised of 22 educational professionals selected by NEASC spent four days at the school assessing the quality and effectiveness of all vocational-technical, academic and ancillary programs. A report of their finds will be forthcoming.

The school's twenty-fourth Commencement Exercises were held Friday, June 2, in the Vietnam Veterans' Memorial Physical Education Complex at Mount Wachusett Community College, Gardner. A total of 188 members of the Class of 1995 were presented with diplomas and trade certificates. Keynote speaker was Brenda Dann-Messier, regional representative for the U.S. Department of Education.

At the annual Senior Awards Night program, held Wednesday, May 31, in the school gymnasium, members of the Class of 1995 were presented with awards and scholarships in recognition of their many accomplishments in the areas of academics, vocational-technical skills, athletics, student government and citizenship.

Ninety percent of members of the graduating class have either secured full-time employment, entered the armed forces or opted to continue their education. Of the total number of students working, 50 percent are in careers related to their areas of study. A few of the area companies hiring Monty Tech graduates this year include Omnirel Corp., Ranor Inc., Simplex Time Recorder Co., Aubuchon Hardware, Central Mass. Auto Body & Frame, Sentinel & Enterprise, Fitchburg Tire,

Custom Design Woodworking, Dr. Kenneth Bouchard, Colonial Bed & Breakfast, Avery Dennison, TRW Fasteners Division, Leominster Hospital and Duplease Electrical.

Twenty-six percent of the class has opted to postpone full-time employment to continue their studies at two-and four-year colleges and universities and technical schools. Historically, school officials say, this figure increases as the fall approaches. A few of the institutions accepting members of the Class of 1995 include the University of Massachusetts at Amherst and Lowell, Wentworth Institute of Technology, Northeastern University, Boston University, New Hampshire College, Johnson & Wales University, Fitchburg State College, ITT Technical Institute, Universal Technical Institute and Mount Wachusett Community College.

As for the remainder of the class, some have entered the armed forces, where they were selected for training in the following specialties: nuclear electrician, intelligence, security forces, aircraft mechanics, military police, bio-medical equipment repair, construction equipment operator and artillery/computers.

Superintendent Dukakis was elected as President of the Massachusetts Association of Vocational Administrators (MAVA) at the group's annual meeting held last spring in the Milford Sheraton. He previously served as the association's Treasurer, Secretary, Vice President and President-Elect. MAVA is a very active professional organization committed to excellence in vocational-technical education.

Technology Investigations, a middle school technology outreach program, was developed and implemented this fall. The program provides current state-of-the-art technology instruction to sixth, seventh and eighth grade students. These students develop an understanding of the technology used in the world of work and an appreciation of the role that vocational-technical education can play in providing the scholastic tools for a career ladder to success. The initial implementation has begun at the Hawthorne Brook Middle School in Townsend, which is part of the North Middlesex Regional School District.

Twice a year, in the spring and fall, the public has the opportunity to visit Monty Tech and see firsthand what vocational-technical education in the 90's is all about, and what it has to offer students, employers and residents. Each year, these two events--Open House and the Career Awareness Program--continue to attract many prospective students and interested members of the community.

Monty Tech is extremely proud to be the recipient of the 1995 Michael Querico Award for raising the most money of any central Massachusetts high school participating in the third annual Walk For Life, sponsored by AIDS Project Worcester Inc. Monty Tech students and staff members participated in the walkathon, held during the spring, and raised a total of $1,400 in pledges. Approximately 20 schools participated in the event which netted $191,000.

Monty Tech's very successful drama group, known as the Ensemble Theater, presented two major productions this year, Neil Simon's "The Female Odd Couple" and the classic comedy, "You Can't Take It With You." Founded three years ago, the group continues to grow in popularity each year, while reaching a high level of professionalism.

The Continuing Education Program has been providing low-cost, high-quality training through courses in practical arts, enrichment, trade preparation and extension, and apprenticeship training since 1971. Course offerings continue to expand each year to reflect recent trends in the region's job market, particularly in the computer and medical fields.

Each fall, the public is invited to tour the latest house built by students and instructors in Monty Tech's House Building Program. This year's project--the 19th built in the Montachusett region since the program began in 1976--is located on Houghton Road in Princeton. The spacious two-story,

contemporary-styled house features such amenities as red oak hardwood flooring, vaulted ceilings, large kitchen with custom-made oak cabinetry, oak staircase, step-down living room with fieldstone fireplace, two and a half baths, walk-in master bedroom closet, full cellar and two-car garage. The program provides students in the building trades programs with invaluable hands-on experience in all aspects of residential building construction.

Monty Tech's Co-Operative Education and Job Placement program continues to provide invaluable work experience for many qualified and skilled students. Through the program, students are able to gain practical paid work experience, while broadening their technical skills, working during school time for area businesses. Many are hired for full-time employment upon graduation. The Lifetime Career Placement program continues to provide job opportunities after graduation.

On April 11, the eighth annual Superintendent's Dinner was held to celebrate Monty Tech's twenty-fourth anniversary and its outstanding school-business partnership. Sponsored by Superintendent Dukakis and the school's Business Education Enrichment Fund, this year's event was attended by a record number of supporters of vocational-technical education from the educational, political and business communities. Special guests were Dr. Robert V. Antonucci, state Commissioner of Education, and Brenda Dann-Messler, Regional Representative for the U.S. Department of Education. Proceeds from the fund-raiser are used to provide school enrichment programs and interest-free loans for students starting their own businesses.

During 1995, members of the Monty Tech's Chapter of the Vocational Industrial Clubs of America, known as VICA, continued their long-standing tradition of winning medals and awards for trade and leadership skills at local, district, state and national competitions. Alicia R. Fuller of Fitchburg, a Dental Assisting major, captured a coveted gold medal at the organization's 29th annual Skills USA Championship held last June in Kansas City, Missouri.

All of this would not have been accomplished without the support of the School Committee, staff, faculty, students, parents and guardians working together to advance Monty Tech and its goals and objectives. Lunenburg's representative to the School Committee is Charles F. Valera.

POLICE DEPARTMENT

On April 13, 1995 Lunenburg recorded its third murder in twenty years. Top priority by the Lunenburg Police Department and the C-Pac unit out of the Worcester District Attorney's office was given to this violent crime. Through hard work and support from area police departments, as well as members of the community, we were able to detect and apprehend the perpetrator of this heinous crime. Sadly, this is a wake up call to all of us, that no matter how big or small a community might be, this type of crime can and does happen anywhere.

We urge all members of the community to report any and all unusual happenings to yourself or in your neighborhood so that we are able to check them out or assist you in any way. Only through police awareness and community involvement can we hopefully put an end to these types of violent crimes.

Lunenburg was fortunate in 1995, receiving $55,064 in grant monies for COPS Fast, Community Policing, D.A.R.E. and the purchase of an Intoxilyzer 5000 breathalyzer. The Lunenburg Police Department also participated in The Bulletproof Vest Reimbursement Program, enabling us to obtain vests for all full and part-time officers at a cost of $15,495, which was completely paid for by the state.

Working space and parking at the Police/Fire station is a major concern. However, with the passing of the Caron/Jajuga bill, there may be some state aid assistance available to help offset the cost to solve this problem. The Fire Chief and I are watching this bill closely and once it is

funded and the R.F.P.'s come out, we will pursue it vigorously to get whatever funds we can to help solve our space needs problems. Remember, this is your community and your Police Department. Do your part in assisting us in obtaining the funds and space required so we may better serve you.

In 1995 the following Lunenburg Police Department handled 2636 incidents. The breakdown is as follows:

Abandoned motor vehicles	**6**
Abuse of a child	**1**
Accost/Annoying	**2**
Alarm sounding	**656**
Animal complaints	**20**
Annoying/obscene phone calls	**54**
Armed robbery	**2**
Arson investigation	**9**
Assault & battery	**43**
Assault with a dangerous weapon	**4**
Assist public	**43**
Attempted Breaking & Entering	**11**
Attempted suicide	**3**
Bicycle accidents	**3**
Boating accidents	**1**
Breaking & Entering	**75**
Breaking & entering into a motor vehicle	**26**
By-law violation	**1**
Care & protection	**1**
Check fraud	**3**
CHINS (Child in need of service) arrests	**2**
Commitment	**2**
Credit Card	**1**
Disorderly person	**3**
Disturbance	**15**
Domestic problem	**60**
Drug arrests	**9**
Drug search	**2**
Dumping rubbish	**2**
Explosives	**1**
Family problems	**14**
Fire assist	**69**
Flim-flam	**2**
Hit & run motor vehicle accident	**37**
Homicide investigation	**1**
Indecent assault & battery	**5**
Indecent exposure	**1**
Investigation 209A	**5**
Keep the peace	**11**
Larceny attempt	**5**

FIRE DEPARTMENT

During the calendar year 1995 the Fire Department responded to a total of 1059 incidents. Of this number, 378 were rescue/ambulance calls, 323 were fire related and 358 were inspections. The total ambulance and fire related incidents showed an increase of 34 over last years total. This is the fourth year in a row that our fire incidents have shown an increase. This is due to increased growth in the town and increased demand for services by the townspeople.

Overall condition of the fire department is very good. We were fortunate to place a new pumping engine into service this past year. This engine carries a large amount of water and hose. It is designed and built with all amenities that make it a first class fire truck. With this piece of apparatus, we now have a modern fleet of fire trucks with the oldest being 1984. With the reliable apparatus that we have now, our firefighters can be assured that the equipment is going to allow them to perform their duties safely with the maximum efficiency.

In July we added one more full time Firefighter/EMT for the daytime hours. This will allow us the time and manpower during the weekdays to guarantee that service to the townspeople will be available immediately, and at the same time we will be able to cover the station for a second call or continue the usual daily business. Having enough help also guarantees our firefighters that their equipment will be in top working condition when they need it. This position is working out very well and we thank the town boards and taxpayers for making it possible.

Areas that we are still lacking are in the station itself. We desperately need more room to be able to function adequately. We are very crowded and don't have any maintenance space. Some of our vehicles have to be stored outside which is not good in this climate. Snow and cold weather delay the response of these vehicles if we need them.

Although our firefighting apparatus is in good shape, our most used vehicle, the ambulance, will need to be replaced in two years, 1998. The ambulance we have will be 10 years old at that time. Due to the constant use and age, this replacement will be a must then. Estimated cost to replace it will be approximately $80,000.

It takes a lot of difference people to make this Department function as well as it does. Sometimes these people don't get the credit that they deserve, especially the dispatchers that take and dispatch our calls. Without their dedication and attention our job could be a lot harder and more dangerous. Also, our secretaries, the Board of Selectmen, the Finance Committee, and other boards that we constantly work with and support us deserve a lot of credit. Our firefighters are second to none in the performance of their duties and it shows every time they go out the door. Their efforts are appreciated and I thank their families for their quality time away from the family unit. Without this understanding, we would not have the Fire Department we have today.

ROSTER OF FIREFIGHTERS FOR 1995

1984	E One Hurricane	11392.0
1995	E One Sentry	3241.0

LUNENBURG HOUSING AUTHORITY

The Lunenburg Housing Authority celebrated its' Twenty-Fifth Anniversary in 1995. The doors to the Pearl Brook Apartments opened during October 1970. Over the years these doors have provided decent, safe, and affordable housing to many senior citizens of Lunenburg and the region. We are fortunate to have some original residents still residing at Pearl Brook.

The Authority made improvements to the Pearl Brook Apartments Community Hall with better lighting and a fresh coat of paint. Many residents have expressed their approval and thanks for these much needed improvements.

On a larger scale, public housing programs are in the midst of great change, on both the federal and state levels. In the past our elderly housing program was dedicated to serving only elders. Recent legislation has expanded the Lunenburg Housing Authority's elderly/disabled housing program to serve more non-elderly disabled. The production of affordable family housing has ended, as the need continues to grow. The Lunenburg Housing Authority's family housing program has full occupancy and a substantial waiting list.

The Board of Commissioners continue to pursue means that will make the Lunenburg Housing Authority self-sufficient. The Authority is mandated to limit rental fees to 30% of its' residents' income, while assuming payment of all utilities. Therefore, reducing utility costs continues to be a major goal.

During 1995 the Authority received thirty-two (32) applications for housing assistance. Fifteen (15) of these were for elderly housing assistance, and seventeen (17) were for family housing assistance.

Respectfully submitted,

Barbara L. Schnuer
Bernard Paton
Dana Fraser
James McKenna
Timothy Murphy

BOARD OF HEALTH

The first substantial changes to the Massachusetts Title V Regulations concerning the citing, construction, inspection, repair and upgrading of on-site sub-surface disposal systems became effective in March of 1995.

These changes have had an immediate and substantial effect on many of the residents of our community and will continue to impact anyone who intends on buying, selling or improving their property.

In addition to the individual aesthetic and financial impacts that have already been seen by many, there is an impending townwide impact looming ahead.

Many of the Town owned septic systems, especially in and around the center of Town are either presently in failure, or will fall into that category shortly.

The Board of Health is convinced that the only way to resolve the problems associated with septage disposal in an environmentally acceptable and financially affordable way, particularly in certain highly developed sections of Town, is to actively pursue the expansion of a public sewer system.

The first phase of this collection system was made possible by collaborative effort of the Board of Selectmen, acting as Sewer Commissioners and the developers of Lunenburg Crossing.

It is important that we continue to support the Sewer Commissioners in their efforts to expend the collection system. However, we must also be fully aware of what this expansion is going to cost, and how we intend to pay for it.

The Town continues its association with the Nashoba Board of Health. In addition to the daily work concerning septic disposal systems, we are able to jointly sponsor well adult clinics, flu shot clinics, lead paint and cholesterol screening and a variety of other health clinics throughout the year. Information on any of the services provided is available daily by contacting the Board of Health office in Town Hall at 582-4135.

During 1995 the following services were provided to the Town by the Nashoba Associated Boards of Health:

LUNENBURG PLANNING BOARD

The Planning Board processed 24 ANR Plans (Division of Land with frontage on a Public Way). This is an increase of 8 plans over FY'96. Building Permits issued by the Building Department showed an increase also and the estimated increase of dwelling units rose from 3,496 to 3,661 units since 1990.

The Board is still working with Longwood Drive and Easterbrook Farm subdivisions. The Woodlands at Hickory Hills, under Planned Residential Area Bylaw, is in the second phase of construction. The completion of the pump house at the well site has been completed. The review for the Village at Flat Hill under Planned Residential Area Bylaw is still in progress. Intech Corporation will receive closure upon completion of two items. Lunenburg Village II's Development Plan Review is complete. The signing component of Lunenburg Village II is in process. The applicants', Fowler First Class Import Auto Service, Inc. and Glow's Chiropractic have completed construction where they are able to operate under a temporary permit until they can complete outdoor and landscaping items. Chapdelaine Truck Center addition, under Development Plan Review is in progress. Peterborough Oil has a Development Plan Review approval which at the time of writing may be revised.

The Planning Board is working steadily on the Master Plan. Components are researched and written as funding is available. The Planning Office does the basic research. Planning Consultants work with the Board to finalize the Components by looking at planning norms and statutory requirements. The Planning Board has added Components which include signage, capital planning, sewer studies, permit process. The next component that the Planning Board wishes to undertake under Chapter 41, Section 81D is the standards of population, density and building intensity to the capacity of land available or planned facilities and services. The other element needed is the economic development element.

The Planning Board accepted the study entitled Southwest Study on the Impact of Sewers. This study was the result of a Grant awarded by the E.O.C.D. The Board established policy based on this study and has placed the Southwest Sewer Impact Study in the Rules and Regulations Governing the Planning Board. The Board will bring component of the study before the Town through Zoning Bylaw articles. Components are a Route 2A Overlay District which purpose is to improve safety for vehicular traffic, protect natural features, manage appearance of newly developed commercial areas, encourage economic development, increase property values and employment opportunities. Also an amendment to the Zoning Map of increased depth commercial area on the south side of Route 2A between Electric Avenue and Pleasant Street from the present depth line to the transmission lines. A third component is the presentation of a Bylaw that will enable development of assisted living facilities for the elderly. This type of development is done by private developers and presently the Bylaw is silent on the issue. This means that citizens in our Community who require this type of living style must leave our community to access it (the Board wishes to thank the Committee Members, Michael Barbier, Marion Benson, Dennis Carrier, Laura Dunbar, David Reed, Almon Ruggles and Roger Williams. The Committee also worked with a Planning Consultant).

The Planning Board office has codified the Zoning Bylaw. The Bylaw has not been reviewed word for word in many years. Changes by Town Meeting vote were inserted each year; this procedure and the existing format lent itself to errors. The new format makes it easier to locate individual sections. Town Meeting will vote for acceptance for corrections of typographic errors, inconsistencies with the Statutes and clarification of wording as well as a separate article on substantive changes which will be noted in detail. The Planning Office has also started the codification of the Rules and Regulation governing the Subdivision of Land, the Fee System and other polices and forms.

The Board will preset other Articles on the Town Warrant which will include wording on height restrictions and adult uses as defined in Chapter 40A, Section 9 of MGL. The recent Cellular Law passed by Congress allows for Towns to put in place certain restrictions on the construction and location of the towers. The Planning Board Rules and Regulations contains regulations, however an article presented to the Town Meeting will verify the same through zoning.

The Board is working on the Space Needs Studies with the Capital Planning Committee. The Board has reviewed the Town Goals and is preparing a document that will present further methodologies to achieve the goals by allowing the community to plan for delivery of services in a methodical manner. The Study will include research on pro's and cons of Phased Growth. The office is also updating the Community Action Statement mandated by the State.

Board members are representative on the Montachusett Regional Planning and Mart Commissions, Capital Planning Committee, School Building Committee, Eagle House Building Committee, School Strategic Planning Committee, Housing Partnership and School Community Linked Service Partnership.

RITTER MEMORIAL LIBRARY

Ritter Memorial Library is a small public library serving the needs of the still somewhat rural Town of Lunenburg. This library is a focal point in the town's center where residents of all ages come together in pursuit of lifelong learning and cultural enrichment.

The Ritter's primary role is that of a popular materials library and its secondary role is in support of formal education for children and adults. The library serves as a resource center linking users with an assortment of materials and services to meet their reading, viewing, computing, and listening interests.

The high level of emphasis on librarian services helps users best utilize our own collection and resources available through the Internet and Regional Library System.

Ritter's membership in CW/MARS, the network linking area libraries, also provides free access to valuable information databases. The library is grateful for the generous support of the Town.

Highlights of 1995 at Ritter Library included:

* Fully Automated as of 1/9/95
* $6,000 grant to open a Homework Center
* Five Visiting Writers including Sally Cragin, Romayne Timms, Carol Picard, Robert Cormier, and Grace Cali as part of our continuing Literary Lights Series
* The Ninth Annual Musical Afternoon featuring the Elysia Chamber Players Trio, organized by Marguerite Soroka and funded by the Massachusetts Cultural Council and the Friends of Ritter Library

* Citation from the Massachusetts State House of Representatives honoring Ritter's volunteers for their "outstanding dedication and commitment on the Automation Project"... proclamation offered by Rep. Robert S. Hargraves. Reception held to honor the 50+ volunteers
* Multi event celebration of the United Nations' 50th Birthday
* "Amazing Grace," a performance during Black History Month by Thelma Kheighati and Mary Makoski in poetry, song, journal accounts, and other authentic records telling true stories of personal transformation from Slavery to present day
* Increased memberships in the Friends of the Library...now over 300. The Friends fund many of our programs and provide valuable financial support to Ritter.
* Nine Friends of the Library passes to area museums: Boston Science, Boston Children's, Boston Fine Arts, New England Science Center, Fitchburg Art, Worcester Art, Tower Hill Botanic, Higgins Armory, and the Discovery Museums... Family memberships still only $7 per year.
* "Reading is Natural" Summer Reading Program for children featured daily activities including a book writing workshop, a drama production, a town clean-up week, and incentive prizes paid for by Whalom Park and the Friends of Ritter.

ZONING BOARD OF APPEALS

The Zoning Board of Appeals heard eleven (11) Petitions seeking Special Permits, five (5) were granted, two (2) were denied, three (3) were withdrawn without prejudice and one (1) required no action by the Board.

There were six (6) Petitions seeking Variances, four (4) were granted and two (2) were denied.

There was one (1) Petition from a person aggrieved. The Board found in favor of upholding the order issued by the Zoning Enforcement Officer.

The Zoning Board hired a new secretary, Susan B. Doherty, in November of 1994.

The function of your Zoning board of Appeals as required by statues are as follows:

1. To hear and decide applications for Variances from the Town's Protective By-laws, as authorized in these By-laws.

2. To hear and decide applications for Special Permits as authorized in the Town's Protective By-Laws.

3. To hear and decide appeals in accordance with Section 8 of Chapter 40A of the Massachusetts General Laws, as amended, from any person aggrieved by reason of his or her inability to obtain a permit or enforcement action from the administrative officer of Board in the Town, the Regional Planning Agency, abutting City or Town or other administrative official.

4. To act upon applications for comprehensive permit in accordance with Massachusetts General Laws, Chapter 40B.

LUNENBURG SCHOOL COMMITTEE

Chairperson:	Michael Barbier	Term Expires: 1997
Vice-Chairperson:	Marcella Collier	Term Expires: 1998
Secretary:	Jane Hall	Term Expires: 1996

Grade 9	147
Grade 10	113
Grade 11	119
Grade 12	96
District Total:	1788 students

SUPERINTENDENT OF SCHOOLS REPORT

It is my pleasure to submit to you my third annual report concerning the Lunenburg Public Schools. The schools have been working with the implementation of the Educational Reform Act of 1993. School Councils are actively working in the school and working with administrators on school improvement plans.

The mission of the Lunenburg Public Schools is: "To develop responsible, self-motivated students through a learning environment that is exciting, challenging, and innovative." This is the foundation of our schools and everyone strives toward this mission. To support this mission, the school committee established the following goals for the 1995-1996 school year:

* Support the school councils in their development and implementation of school improvement plans through regular interaction, communication, and review through the administration and one group meeting of all three councils and an individual meeting with each council during the 1995-1996 school year.

* Adopt a plan that will enable the school system to aggressively seek additional funding with the hopes of receiving funding from sources outside of the Town on an ongoing basis.

* Adopt a plan that will yield significant improvement in the quality of materials and services available and offered at the Lunenburg High School, Turkey Hill Middle School, and the T.C. Passios Elementary School libraries.

* Structure School Committee meetings so that agenda items can be handled in a responsible length of time not to exceed 2 1/2 hours unless extenuating issues arise.

* Adopt a new process of policy review and development that will include input from administration, faculty, parents, community and high school students and establish a policy review calendar ensuring all policies being reviewed within the next three years.

* Assist and provide input to the Coordinating Committee of the Strategic Plan in developing a more objective/goal oriented plan for school and community use.

* Continue to expand and improve the quality of communication with the community to increase community awareness of the system regarding accomplishments and challenges and find a vehicle to disseminate this information three to four times per year.

The School Building Committee has been working on addressing the needs of the school relative to space and accreditation issues. The members of the School Building Committee are:

Nancy Chapdelaine Co-Chairperson	Mary Ann Kane Co-Chairperson	Steve deBettencourt Vice-Chairperson

****

****Members:	Advisors:
Jerome Benson	Richard Bishop
Donald Bowen	Superintendent Richard Carlson
Diane DelliCarpini	Wade Collier
George Emond	Scott Doty
Jane Hall	
Katherine Lowe	
Thomas Mason	
Lance May	
Patrick Palmaccio	
David Pelletier	
Lisa Stone	

In January 1996, the School Building Committee hired The Design Partnership of Cambridge to conduct the School Feasibility Study as authorized by the Annual Town Meeting in 1995. Through the process of conducting the feasibility study, the architects have conducted inspections of existing buildings, projected school enrollments and determined program space needs. Interviews of various individuals and groups have been conducted in determining needs. Together with the architects, the school building committee will hold public meetings to review the results and recommendations of the school study.

Our work on reviewing and revising the curriculum in grades K-12 has been going as planned. The mathematics program has been implemented this year and recommendations for changes in science and industrial technology will be forthcoming for the 1996-1997 school year. I wish to congratulate the parents and staff that serve on the curriculum committees for a job well done.

In November 1995, the Lunenburg Public Schools was notified by the New England Association of Schools and Colleges that the high school accreditation status was being placed on warning for failure to adhere to the Commission's Standards for Accreditation. The Commission is requiring that school officials submit a Special Progress Report by July 1, 1996.

The areas are outlined in Mr. Sambuceti's Annual School Report contained in this booklet. The School Committee and I have developed a plan to address the issues outlined in the report. We look forward to working with the community in implementing the plan developed to correct the outstanding issues.

Words cannot express my appreciation to all those involved in our schools. From the staff, administration, volunteers, support organizations and individuals that provide so much to our schools and programs. The Lunenburg School Committee continues to work on behalf of the community and students to ensure quality education for all students. I would like to thank the committee for their support of all those involved with the schools.

Lunenburg continues to provide a strong education that prepares students with a wide-range of skills necessary to pursue further education or participate in the work force. I firmly believe that if we continue to work together we will ensure the most appropriate programs and services to meet the future needs of our community and students.

I am pleased to present to you the reports prepared by Frank Sambuceti, Lunenburg High School Principal; Mary Cringan, Turkey Hill Middle School Principal; William McSheehy, T.C. Passios Elementary School Principal; and Linda Chase, Director of Special Education.

HIGH SCHOOL

Lunenburg High School offers a comprehensive program of studies for students in grades 9-12. Since almost 80 percent of the graduates of Lunenburg High School typically pursue higher education, our curriculum provides a rigorous program of college preparatory courses in English, mathematics, science, social studies, and foreign language. Complementing this academic core are quality offerings in business education, art, music, industrial technology, and physical education.

Lunenburg High School also provides an extensive, high quality co-curricular and extra curricular program. Our students are encouraged to participate in the many clubs, organizations, events and/or interscholastic athletic teams which are available. Among our numerous student clubs and activities are: Debate Club, Cooking Club, Youth and Government Club, Yearbook, Student Council, International Club, Drama Club, Math Team, National Honor Society, Nature/Environment Club, National Art Honor Society, Future Business Leaders of America, and the Amnesty International Club. Additionally Lunenburg High School sponsors a wide variety of interscholastic sports at the various levels of boys' and girls' competition. Our athletic program includes: baseball, basketball, cross country, football, golf, soccer, field hockey, tennis, track, softball, and hockey.

In October of 1990 Lunenburg High School underwent a rigorous accreditation evaluation by the New England Association of Schools and Colleges. Over the past five years the LHS faculty and administration have worked very hard to implement the numerous recommendations contained in that Evaluation Report. Considerable progress had been achieved in this endeavor. By last spring, the point at which our major Five Year Progress Report had to be submitted to the Education Commission, almost 90% of NEASC's 194 original recommendations had either been implemented fully or were in the process of being completed.

This fall we received the Education Commission's official response to our Five Year Progress Report. The following is excerpted from the text of their letter:

The Commission on Public Secondary Schools, at its September 17-18, 1995 meeting, reviewed the Special Progress Report of Lunenburg High School and continued the school's accreditation, but placed the school on warning for its failure to adhere to the Commission's Standards for Accreditation on Curriculum and Instruction, Library Technology and Media Services, and Financial Support.

Specifically, the school has failed to address library needs related to the lack of space in the library media center, the inadequate size and breadth of the print collection, the limited library technology, the library's inadequate seating capacity and furniture, and the adverse impact on the delivery of library media services resulting from the elimination of the library aide.

Additionally, the Commission expressed concern that limited financial support had prevented not only the addressing of concerns about the library identified as long ago as 1990, but also the purchase and effective integration and application of technology for teaching and learning across all curriculum areas. Specifically, there exists only one computer lab with twenty obsolete computers to serve the needs of the entire school, the technology utilized by the science and industrial technologies departments is insufficient to support student centered interactive exercises, and the foreign language department is devoid of any technology supported curricula to improve student language acquisition and proficiency.

While acknowledging that school officials have taken seriously their responsibilities in the follow-up phase of the accreditation cycle and have addressed all recommendations that were within the purview of the school, the Commission expressed concern that the level of financial support necessary to address the remaining evaluation report recommendations is woefully inadequate.

The Commission requests that school officials submit a Special Progress Report by July 1, 1996 in which school officials are asked to:

- *submit the action plan developed by the building committee to renovate and expand the library, including a detailed timeline for completion.*
- *update and expand the library print collection, electronic retrieval and networking systems, media equipment, and furniture.*
- *provide remedial and developmental reading programs.*
- *document an additional increase to ensure a suitable budget for the library media center.*
- *confirm the hiring of a library media aide.*
- *report the progress to address recommendations previously reported as In Progress Planned for the Future, or No Action.*
- *develop and implement a capital improvement plan to address identified needs related to the renovations of science labs, shops, auditorium seating, gym bleachers, and the installation of a language lab.*
- *report the steps taken to update and expand the technology available in the computer lab to meet the instructional needs of all students.*
- *report the steps taken to update and increase the integration and application of technology for teaching and learning across all areas of the curriculum, including science, industrial technology, and foreign language.*
- *report the steps taken by the community and the school board to ensure an adequate and dependable source of revenue to provide and maintain appropriate personnel, facilities, equipment technological support, and material for all students served by the school.*
- *implement the school's plan to decrease the drop-out rate.*

These are surely most serious and imposing issues. It's essential that our school community find the means necessary to meet the challenges which face us. The superintendent of schools has subsequently issued a letter in which he outlined his plans to address our NEASC obligations.

The following is taken from Mr. Carlson's letter:

I want you to know that the School Committee and I...share the same concerns you do about any further action from NEASC.

Last year a School Building Committee was formed to look at the space needs of the Lunenburg Schools specifically the elementary school and high school. At he annual town meeting in May 1995 funds were approved to hire an architect to conduct a feasibility study of our schools and make recommendations on how to deal with the issues.

This is a necessary step in order to complete any extensive work in a school in which we would seek state reimbursement. In a feasibility study, all background information such as NEASC reports and recommendations are provided to the architect for incorporation into final plans.

As part of the Capital Plan requests for next year, I have included $50,000 to begin renovations of the science labs.

The Technology Committee of the school district has been asked to develop a technology plan for our schools and to submit a budget request to fund Phase 1 of their plan.

Addressing the items detailed in the NEASC letter will take all of our efforts. We need to work together to accomplish the goal of improving the current conditions at the high school. The building project is our vehicle to address the concerns expressed relative to the facility. Without the approval of the building project by the Town, we will be hard pressed to implement the recommendations made by NEASC through our operational budget.

The superintendent's words make clear the challenges, as well as the opportunities, which lay ahead. Our responsibility to comply with the Education Commission's directives is unequivocal. More importantly, however, it is essential in order to enable Lunenburg High School to provide its graduates with the kinds of high quality, comprehensive academic experiences which will enable them to compete successfully in, as well as contribute to, the world of tomorrow.

We believe that Lunenburg High School exemplifies an academic community in the broadest and best sense. Faculty and students alike are together engaged in an activity which we believe is life long - the process of learning and growing. The 1994-1995 school year was by any measure a successful and productive one for our high school. We reflect on the past year with satisfaction and pride and to the future with equal optimism and confidence. We remain committed to our mission of optimizing educational opportunities for our students as well as contributing to an enriched quality of life in this community. We are confident that with the continued support of the community which we serve, the challenges which lay ahead can and will be successfully met.

SCHOOL STAFF

TURKEY HILL MIDDLE SCHOOL

The student enrollment at Turkey Hill Middle School increased to 585 for the 1995-1996 school year. Principal Mary Cringan and Assistant Principal Jeffrey Mulqueen, along with the entire staff recognize their responsibility in preparing young adolescents to be successful, productive and contributing members of a changing global society.

Academic excellence remains a high priority at THMS. The entire staff works very hard to provide the maximum number of opportunities for all students to learn. It becomes the responsibility of the student and family to do the rest. It is our expectation that parents, students and teachers will work together in making the middle school years a most positive, rewarding and academically challenging experience for all. The four basic curricular areas in grades five through eight are: language arts, science, social studies and mathematics. In grade eight, all students have the opportunity to study either French, Spanish or Latin. Special Area subjects (art, music, home economics, technology education, health and physical education) offer a unique element to the middle school curriculum. These special subjects provide valuable experiences for all students.

The THMS School Advisory Council developed their first annual School Improvement Plan. Council members wrote the components of the plan after seeking input from parents, staff and community members from the results of surveys, questionnaires and informational meetings. The following five goals are being addressed: enhance the use of computer technology as a tool to assist student learning; increase student time on learning; increase and encourage community involvement; maintain a safe, comfortable learning environment; and update curriculum in conjunction with the curriculum frameworks established by the Massachusetts Education Reform Act of 1993 and follow the timeline established by the Lunenburg Public School Curriculum Advisory Committee, incorporating appropriate professional development and revision of instructional and assessment methodologies.

Many new and exciting changes continue to take place at THMS. We are in our fourth year of PALMS, Partnerships to Advance the Learning of Math and Science. Noreen Berry, Lunenburg's PALMS Specialist, along with teachers Susan Petrowicz and Deloris Gudaitis are providing programs for parents and training for teachers in new ways to teach and integrate math, science and technology. Our new math curriculum is being implemented in all grades and new curricula in Science and Technology Education are expected to be adopted for September 1996. Eric Beers and Mariam Cronin are continuing to participate in the Massachusetts Department of Education's program with portfolios. Mr. Beers and Mrs. Cronin are just two of hundreds of classroom teachers across the state who are playing an important role in building practical new assessments with the help from leading experts in assessment, learning and curriculum.

Our eighth grade students along with the Special Area teachers will continue with our third annual Community Service Week. The students will provide services for several Town departments and agencies early in May. This program will help our students gain valuable knowledge about their community through observation, study, service and meaningful work.

THMS considers the whole student in its implementation of appropriate programs. Educational decisions for early adolescents are based on the students' emotional, physical, social and intellectual development. We believe that each child will become a self-motivated, creative, life-long learner in a safe, stimulating environment which encourages diversity and honest, open communication.

THOMAS C. PASSIOS ELEMENTARY SCHOOL

The Thomas C. Passios Elementary currently has an enrollment of approximately seven hundred and twenty-five children in grades preschool through four.

The Thomas C. Passios Elementary School has as its goal the education of all children. It strives toward promoting growth in a variety of areas with as many means and methods as possible. To this end, the School seeks regularly to improve its curriculum, to meet the needs of a diverse student population, to provide for the emotional, social, and physical needs of students, to insure that teachers are current with educational trends, to teach students basic technological skills, and to keep parents abreast of what is happening in their school.

Quality schools continually assess their existing curricula in order to identify areas of strength and weakness. This aspect of education has become more important because of the accelerated pace of new knowledge brought about by an ever-changing world dictated in part by sophisticated technology. Our school has remained educationally competitive by recognizing the significance of collaborating with other schools, colleges, businesses, parents and agencies in sharing expertise and resources.

One such program which has provided this collaboration has been the Partnerships Advancing the Learning of Mathematics and Science (PALMS). Now in its third year, PALMS has dramatically changed the approach to teaching and learning Math and Science at the Elementary School. This inquiry-based (hands-on) method of instruction has transformed a routinely teacher-directed Math and Science program into a stimulating, challenging, and integrated student-engaged program.

During the development of PALMS, the Elementary School staff has had the opportunity to work closely with Math and Science specialists from Fitchburg State College, the New England Science Center, and the Activities for the Integration of Math and Science (AIMS) program. Funding and resources for these programs have been provided by the National Endowment of the Sciences, the Lunenburg Educational Advancement Foundation, the Eisenhower Grant, Block Grants, the Foxboro Corporation, as well as the Massachusetts Department of Education.

Another example of successful collaboration has resulted in the advancement of technology in many of our classrooms. Through the combined efforts of the Lunenburg Parent Teachers Organization, the Elementary School Fundraising Committee, and the Lunenburg School budget, twelve IBM CD ROM personal computers have been purchased for our third and fourth grade classrooms. Two individuals have provided training and guidance in establishing an effective and successful classroom computer program. Lela Male, Computer Specialist for the Lunenburg School system, serves as our technical adviser, trouble shooter, and computer mentor. Leslie Perrault, Elementary School Parent and Computer Consultant, provides on-going instruction/training for the staff in the educational uses of the computer.

The Professional Development program has had to keep pace with an ever-changing society, as well. The school considers the continuing education of its staff to be critical to the basic education of its students. The education of our children must reflect changing, up-to-date curricula, and teachers are the cornerstone of this philosophy. The Professional Development program at the Elementary School encompasses a wide variety of current educational theories and methodologies. Staff members this year have taken part in such diverse workshops as Running Records, Personal Nutrition, Discipline with Dignity, Science Process Skills, Developing Science Kits, Multiple

Intelligences, Kids' Kits, Computer Training, Recertification Guidelines, Special Area Teacher Roles in Special Education, Project Read, and Alternative Assessment.

Another program, which was begun three years ago with five students , has been expanded this year to include twenty-five students due to the efforts of volunteer parents. Ginny Albertson, Cheryl Raboin, Pat Duynstee, Susan Conroy, and Sherri Borreson have successfully directed the Future Problem Solvers program for Fourth Grade students. The Future Problem Solvers program is a national, academic enrichment program which incorporates current social issues with research, reasoning skills, and writing.

The Kids and Company; Together for Safety program is in its second year of implementation. This valuable, comprehensive, personal safety curriculum provides children with skills, information, self-confidence, and support which will enhance self-esteem and help prevent abduction and abuse. The Children's Trust Fund of Massachusetts provided funding for materials for each grade level and training for classroom teachers, nurses, and guidance counselor. The training was conducted by a specialist from the Lipton Center.

The Passios School places great importance on the belief that schools and parents should be partners in their children's education. This collaborative effort has been promoted through the use of monthly, classroom newsletters this year. These newsletters provide parents with information about timely, academic programs, specific skills which may be practiced at home, special assignments, and upcoming events.

The Passios School feels proud to be part of these collaborative efforts in which the sole purpose is the improvement of education for all children. We are confident that this networking will provide our children with the necessary resources to develop skills that will allow them to succeed in this fast-changing society.

The members of the Elementary School Advisory Council for the 1995-1996 school year are:
Principal: William F. McSheehy
Teachers: Jean Jones, Mary Beth Nee and Dana Belair
Parents: Lisa DiGeronimo, Nancy Chapdelaine, Mary Ellen McKenna, and Colleen Stillman
Community Representative: Elizabeth Montuori

SPECIAL EDUCATION DEPARTMENT

The Special Education Department of the Lunenburg Public Schools provides services to eligible students, ages 3 to 22 with mild to severe disabilities. Services provided include: academic instruction, academic support and learning disabilities tutoring. Related services in the areas of speech and language therapy, occupational therapy, physical therapy, and counseling are also provided.

The philosophy of the Lunenburg Public Schools' Special Education Department is congruous to state and federal laws which emphasize that handicapped students have the right to be educated with non-handicapped peers. Special Education is seen as a means to support, not supplant, regular education. The emphasis on special education, locally and nationally, is on "inclusion", a term used to describe the premise that special education students be taught in regular classroom settings not in segregated settings. Support from special education teachers is provided within regular classrooms. Support is also provided in special education classrooms as deemed necessary and on an individual basis. In Lunenburg, inclusion is not a new concept. It has been a consistent practice for several years.

Over the past few years, changes in state and federal regulations have resulted in the formulation of guidelines for determining eligibility to receive special education. These guidelines emphasize that all efforts must be made to meet the needs of students in regular education prior to a referral for

special education. Students referred for special education must receive a comprehensive evaluation. This evaluation must conclude that a disability exists and that the disability prevents the student from making effective progress in regular education. The special education department in cooperation with the regular education administration and staff has adopted and practiced a highly effective pre-referral system. Many of our students have been able to progress effectively and participate in regular education classes and activities successfully as a result.

Parents have a vitally important role in the education of their children. For special education children it is equally important. A parents advisory council for parents of special education students meets monthly and has planned a variety of activities. These activities include: guest speakers, a newsletter, and a parent support group. Any parent of a special needs child is welcomed to join.

The FLLAC Collaborative is an educational collaborative governed by Superintendents, School Committee members and Special Education Directors. The collaborative develops programs and services for students who are unable to be educated in their own public school districts. FLLAC services many students from surrounding cities and towns. In keeping with the philosophy of inclusion, there are currently 5 FLLAC programs housed in the Lunenburg Public Schools. These programs provide comprehensive special education services to students with moderate to severe disabilities. By housing these programs in our public schools, students are given opportunities to participate in many public school activities and classes on a regular basis. This kind of collaboration has been mutually beneficial students.

The Special Education Department is proudly committed to meeting the very special needs of our students through the provision of quality education. There are many exciting challenges in the days ahead brought forth by education reform. The support of parents, the community, and the staff, students and administration will insure that the quality education reputed in Lunenburg will continue. We look forward to another exciting and productive year.

BOARD OF ASSESSORS

The Lunenburg Board of Assessors is pleased to report that after a period of transition, our office is once again on track with its mandate; to prepare equitable tax assessments, meet the numerous statutory obligations required in administering the tax assessment function, and provide a friendly and helpful environment for tax payers requiring real estate information.

1995 was the first full year the office operated under the Regional Assessors agreement with Ashby and Townsend. Regional Assessor Harald Scheid spends Tuesdays and Fridays in our office. His responsibilities include preparing tax appraisals and revaluations, processing abatement requests, preparing Department of Revenue reports, enhancing our computer capabilities, developing real estate data resources, and generally improving the means and methods by which the office operates.

Ernie Sund, chairman and board member from 1989 to 1995 opted not to seek re-election. His successor, Paul Gagliardi, returned to the Board having served a previous term (1991-1994) and being a current member of the Town's finance committee. Board member Chris Comeau and clerk Dorothy Musgrove attended the State Department of Revenue's 10 week tax administration course and passed the rigorous exam with flying colors. Chris is now a state certified assessor and joins Paul Dickey and Paul Gagliardi, our other certified board members. Norma Frost, our administrative assessor, completed D.O.R. course 200, entitled 'Principles of Assessing Procedures'.

Many of our office's accomplishments can be characterized as basic, but essential to the Town's financial well-being. Tax bills are now mailed in a timely fashion. Significant strides have been made in improving filing and recordkeeping, meeting Department of Revenue reporting requirements, and responding to taxpayer inquiries.

We have mounted a major program to update and improve our office's informational resources. Our goals for the coming year include active participation in the development of a "Municipal Information System" and integration of assessment data with that of other Town departments. We will be exploring participation in a regional collaborative developing computerized maps and a Geographic Information System (GIS). Plans call for the continued, six year program to inspect all Town properties and update our assessment records.

At the request of the Board of Selectmen, the following breakdown has been prepared showing an actual cost breakdown of each individual item\service supplied by the Town to each taxpayer and the relative cost per each item from to the individual's tax bill.

The costs are broken down into eight separate service categories. The three individual columns show the actual budgeted amount, its percent affect on the total tax levy, and its individual cost to each taxpayer household.

As it noted in the report, the breakdown is for the purposes of illustration only and does not attempt to relate income produced by the various town agencies to the cost of funding the entire department or service. Town employee benefits cannot be effectively apportioned by department or service category.

Respectfully submitted,

The Lunenburg Board of Assessors:
Paul Dickey, Chairman
Paul J. Gagliardi, Member
Chris Comeau, Member

TOWN CLERK TAX COLLECTOR TREASURER

As I begin my third term in these offices I would like to thank all those who have helped and supported me over the years. Special thanks to my staff who are always there to help those in need of the services these offices provide.

In August of this year the Town sold a bond issue of $1.9 million dollars to be repaid over the next fifteen years. The majority of this borrowing was $900 thousand for the landfill closure and $633 thousand for capital expenditures voted the past two years. Lunenburgs' bond rating was dropped from an A to Baa, this is still an 'investment grade' and the interest rate of 5.18% reflects the change in rating.

Cited in Moody's rating recap was strained, although somewhat improving financial position. What this means is that in past years we spent all that we expected to receive and then some for current operating expenses and little or nothing set aside for emergencies or maintenance of town owned property. Fortunately, this trend has begun a reversal. In the past three years the finance committee has recommended, and town meeting has supported, the funding of the Stabilization Account that is currently at $290 thousand dollars, the highest it's been in the last ten years. These funds can be appropriated at a town meeting for any purpose and is generally referred to as the Towns' savings account.

Tax Collections were once again 100% for fiscal 1996. This means that the tax was either collected or the property placed in tax title through the filing of a lien at the Registry of Deeds, thereby protecting the Towns interest. Late in calendar 1995 the Towns largest tax title account was paid in full, recovering approximately $250 thousand dollars in taxes. This collection will significantly enhance our financial position specially in light of the severe winter we are facing.

The Town received two computers this year from the Secretary of States office enabling us to go on-line with the Central Voter Registry in Boston. What is the old saying about looking a gift horse in the mouth? The equipment is fine but the programs are time consuming and limited in scope. The system has been fraught with problems causing many Town Clerks and Boards of Registrars to run dual systems, especially for the annual census. That is the case here. We are maintaining the old system for voting lists and street listing. We are not allowed to add any software or hardware to the state provided system. As a result, a voting list that would be fifty pages on our system becomes two hundred pages using the new system. We will continue using both systems at least until the elections in the fall of next year.

The good news is that voter registrations are on the rise. We do not know if it is because of the ease of registering by mail or if it's interest in the presidential election in 1996. Whatever the reason it's welcomed.

FOLLOWING ARE THOSE RECORDS OF BIRTHS, MARRIAGES, AND DEATHS THAT EITHER OCCURRED IN OUR TOWN OR RECORDS WHICH WERE FORWARDED TO THIS TOWN FROM OTHER MUNICIPALITIES IN THE STATE. LUNENBURG RESIDENTS ARE URGED TO NOTIFY THE TOWN CLERK IF IN-STATE RECORDS HAVE NOT BEEN RECEIVED AND RECORDED. IF A BIRTH, MARRIAGE, OR DEATH OCCURRED OUTSIDE THE STATE, THE SAME MAY BE RECORDED IN THE LUNENBURG TOWN CLERK'S OFFICE IF CERTIFIED RECORDS ARE PRESENTED. IN SOME CASES THE TOWN CLERK'S RECORDS ARE SUPPLEMENTED BY RECORDS OF BURIALS WHICH APPEAR ELSEWHERE IN THIS REPORT. IN ORDER FOR THESE RECORDS TO ALSO BE INCLUDED IN THE OFFICIAL VITAL STATISTICS RECORDS, THE FAMILY OF THE DECEASED SHOULD PRESENT A CERTIFIED COPY OF THE DEATH CERTIFICATE TO THE TOWN CLERK. IN ACCORDANCE WITH THE GENERAL LAWS, MARRIAGES WHICH OCCUR HERE BUT RELATE TO LICENSES WHICH WERE OBTAINED ELSEWHERE IN THE STATE ARE NO LONGER INCLUDED IN OUR OFFICIAL TOWN RECORDS.

ARTICLE 6. To see if the Town will vote to amend Article XV of the Town's By-Law entitled "Salary Administration Plan of the Town of Lunenburg", by deleting the Classification & Salary Schedule voted on May 11, 1991 and substituting therefore the Classification & Salary Schedule proposed by the Personnel Board and appearing in the Report of the Finance Committee, such action to be effective July 1, 1995, or act anything thereon. (Submitted by Selectmen). (Finance Committee recommends approval). VOTED UNANIMOUSLY.

ARTICLE 7. To see if the Town will vote to raise by taxation and appropriate, or appropriate from available funds the sum of $5,000 for the purpose of augmenting salaries of eligible employees under the Merit Minimum through Merit Maximum Levels on Article XV of the Town's By-Law entitled "Salary Administration Plan of the Town of Lunenburg" voted on May 11, 1991, such action to be effective July 1, 1995, or act anything thereon. (Submitted by Selectmen) (Finance Committee amends to $4,896. and recommends approval). VOTED UNANIMOUSLY.

ARTICLE 8. To see if the Town will vote to raise by taxation and appropriate, or appropriate from available funds, or by borrowing, all sums of money necessary to defray the charges and expenses of the Town for Capital Expenditures in Fiscal Year 1996 as appearing in the FY96 Capital Expenditure Budget, or act anything thereon. (Finance Committee recommends approval). VOTED UNANIMOUSLY to raise by taxation and appropriate the sum of $23,140. for Capital Expenditures.

ARTICLE 9. To see if the Town will vote to raise by taxation and appropriate or appropriate from available funds, or by borrowing the sum of $155,000 for Capital Expenditure for a high school roof and the completion of a primary school septic system and to authorize the issue and sale of bonds or notes therefore, or act anything thereon. (Submitted by the Capital Planning Committee for Regular Borrowing). (Finance Committee recommends approval). VOTED UNANIMOUSLY to raise by borrowing $155,000. for Capital Expenditures and to authorize the issue and sale of bonds or notes therefor.

ARTICLE 10. To see if the Town will vote to raise by taxation and appropriate or appropriate from available funds, or by borrowing the sum of $109,000 for Capital Expenditure/Improvement/Maintenance for the Fire Department, breathing apparatus replacement, one ton highway truck, new highway drainage, treasurer/payroll computer package, and improvements to the Police/Fire station and Ritter library and to authorize the issue and sale of bonds or notes therefore, or act anything thereon. (Submitted by the Capital Planning Committee by Taxation) (Finance Committee recommends approval) VOTED UNANIMOUSLY to raise by taxation and appropriate $109,000. for Capital Expenditures/Improvements.

ARTICLE 11. To see if the Town will vote to raise by taxation and appropriate, or appropriate from available funds, or by borrowing the sum of $5300, or some other sum of sums, for gutter repairs to the Ritter Memorial Library and authorize the issue of notes or bonds therefore, or act anything thereon. (Submitted by the Trustees of Ritter Memorial Library) ARTICLE 11 WAS PASSED OVER.

ARTICLE 12. To see if the Town will vote to raise by taxation and appropriate, or appropriate from available funds, or by borrowing the sum of $8600, or some other sum or sums, to paint the exterior of the Ritter Memorial Library and authorize the issue of notes or bonds therefore, or act anything thereon. (Submitted by the Trustees of the Ritter Memorial Library) ARTICLE 12 WAS PASSED OVER.

ARTICLE 13. To see if the Town will vote to raise by taxation and appropriate, or appropriate from available funds, or by borrowing, the sum of $7,000 or some other sum or sums, for the purpose of securing part time assistance in the administration of the Town's computer equipment; to act as liaison between Town departments and the Computer Advisory Committee; and to coordinate assistance to the Towns employees including education and training, or act anything thereon. (Finance Committee recommends approval) VOTED UNANIMOUSLY to raise by taxation and appropriate $7,000.

ARTICLE 14.(15) To see if the Town will vote to raise by taxation and appropriate, or appropriate from available funds, the sum of $211,866, or some other sum or sums, to be set aside in the Stabilization Fund, in accordance with MGLA Chapter 40, Section 5B, or act anything thereon. VOTED UNANIMOUSLY to raise by taxation and appropriate $176,937. to be set aside in the Stabilization Fund.

ARTICLE 15.(16) To see if the Town will vote in accordance with M.G.L. C.83, S.1, to authorize the Board of Selectmen to act as a committee of the Town with the powers and authority usually conferred upon a Board of Sewer Commissioners by law, until the Board of Sewer Commissioners has first been elected in accordance with M.G.L. C41., S.63 or the Selectmen have first been authorized by vote to act as such Board in accordance with M.G.L. C.41, S21; or act anything thereon. (Submitted by Selectmen). VOTED UNANIMOUSLY.

Meeting adjourned at 12 Noon to reconvene at 1:00 P.M.

ARTICLE 16.(17) To see if the Town will vote to amend the By-Laws of the Town of Lunenburg by adding thereto as follows: Article IV, Section 20 Ban Cigarette Rolling Paraphernalia. No persons or business shall sell or offer for sale, nor display any cigarette rolling paraphernalia in the Town of Lunenburg. Any person or business which violates the By-Law shall be punished by a fine of $100 or the first offense, and $500.00 plus revocation of their common victualler license for the second offense. (Submitted by Selectmen). Article IV changed to Article VI and VOTED UNANIMOUSLY (Attorney General removed everything following "...a fine of $100.")

ARTICLE 17.(18) To see if the Town will vote to amend the By-Laws of the Town of Lunenburg by deleting Article V, Section 13(d) in its entirety and replace with "The punishment for violations of subparagraphs (a) through (c) shall be as follows: $50 for the first offense; $100 for the second offense; and for each subsequent offense, the vehicle may be towed". (Submitted by Selectmen) VOTED UNANIMOUSLY.

ARTICLE 18.(24) To see if the Town will vote to continue the Lunenburg School Building Committee for the purpose of developing a plan to meet the future space needs of the Lunenburg Public Schools. VOTED UNANIMOUSLY.

ARTICLE 19.(26) To see if the Town will vote to raise, by taxation, and appropriate or appropriate from available funds, or by borrowing the sum of $35,000 for the purpose of hiring an architect to conduct a school feasibility study of the Lunenburg Public Schools, conduct any tests required to complete the study. This study shall be conducted in compliance to Chapter 645 of the Acts of 1948 as amended. (Finance Committee recommends approval) VOTED UNANIMOUSLY.

ARTICLE 20.(19) To see if the Town will vote to re-authorize in accordance with M.G.L. Chapter 44, Section 53 &1/2, to support a traffic enforcement program; the operation of said revolving account shall be conducted by the Chief of Police; funds in this account shall be spent on the operation, record keeping, and legal expenses necessary to properly implement a traffic enforcement program; all receipts resulting from citations given through the program shall be credited to this revolving account; said account expenditures shall not exceed $20,000 per year without the prior approval of the Board of Selectmen and the Finance Committee, or act anything thereon. (Submitted by Selectmen) (Finance Committee recommends approval). VOTED UNANIMOUSLY.

ARTICLE 21.(20) To see if the Town will vote to authorize the establishment of a revolving fund in accordance with M.G.L. Chapter 44, Section 53E & 1/2 to receive reimbursement funds for the Commodity Food Distribution Revolving Fund to be used to pay all costs associated with maintaining this program; the operation of said account shall be conducted by the Council on Aging and the Senior Center Director; said revolving account expenditures shall not exceed $2,000 per year without the prior approval of the Board of Selectmen or act anything thereon. (Finance Committee recommends approval) VOTED UNANIMOUSLY.

ARTICLE 22.(21) To see if the Town will authorize the establishment of a revolving account, in accordance with M.G.L. Chapter 44, Section 53E & 1/2, to provide for the operation of the Council on Aging/Montachusett Area Regional Transit (MART) elderly transportation program; the operation of said account shall be conducted by the Council on Aging and the Senior Center Director; funds in this account shall be spent on the dispatch, operation, maintenance and record keeping of the MART vehicles for the elderly transportation program; all receipts resulting from MART reimbursements shall be credited to this account; said revolving account expenditures shall not exceed $24,000 per year without the prior approval of the Board of Selectmen and the Finance Committee, or act anything thereon. (Finance Committee recommends approval) VOTED UNANIMOUSLY.

ARTICLE 23.(22) To see if the Town will vote to re-authorize in accordance with M.G.L., Chapter 44, Section 53E 1 and 2, the Greenthumb Revolving Fund, to support the Greenthumb Program at Lunenburg High School. Fees, charges and money received from sales of items in connection with this program are to be deposited in this Revolving Fund Account and expended for the operation of this program by the Lunenburg School Committee without further appropriation; said revolving account expenditures shall not exceed $5,000 without the approval of the Lunenburg School Committee. (Finance Committee recommends disapproval) VOTED

ARTICLE 24.(14) To see if the Town will vote to re-authorize the establishment of a revolving fund in accordance with M.G.L Chapter 44 Section 53 E 1/2 to receive funds from library fines and penalties, donations and bequests, and charges for use of copying facsimile and similar services; said funds are to be used for purchase of library and information materials and document equipment and electronic data delivery charges at the discretion of the Trustee of Ritter Memorial Library. (Submitted by the Trustees of Ritter Memorial Library) (Finance Committee recommends disapproval) VOTED UNANIMOUSLY.

ARTICLE 25.(23) To see if the Town will authorize the establishment of a Revolving Account in accordance with M.G.L., Chapter 44, Section 53E 1 and 2 a Special Education Revolving Fund; the operation of said account shall be conducted by the Lunenburg School Committee; funds raised in this account will be from Medicaid Reimbursements for providing services to special needs students in the Lunenburg Schools; expenditures from this account will include all expenses related to securing the reimbursements, said expenditures shall not exceed the total receipts to the fund. Article 25 was Passed Over.

ARTICLE 26.(25) To see if the Town will vote to raise by taxation and appropriate, or appropriate from available funds the sum of $3,000 or some other sum or sums to be used as an annual stipend to the members of the Board of Assessors or act anything thereon. (Finance Committee recommends approval) VOTED

ARTICLE 27. To see if the Town will appropriate the sum of five thousand dollars ($5000), for the Planning Board to be expended with the Capital Planning Committee for the purpose of preparing the Town buildings and facilities element of the Master Plan, or act anything thereon. (Submitted by Planning Board) (Finance Committee recommends approval) VOTED

ARTICLE 28. To see if the Town will amend the dates in Section 4.1.4.4.d. of the Protective by-law (Zoning) to read May 10, 1995 through May 9, 1996 and March 1996 respectively, or act anything thereon. (Submitted by Planning Board) amended to read after sewerage pump stations: "for other than pump stations that would apply to currently owned residences with flows of less than 1,000 (one thousand) gallons per day. VOTED UNANIMOUSLY.

ARTICLE 29. To see if the Town will amend Section 8.4 (Development Plan Review) of the Protective By-law of the Town of Lunenburg as follows:

by inserting in Section 8.4.3.1.e) after the words "floor area" the words "and the use or uses of the floor area by square feet", or act anything thereon. (Submitted by Planning Board) VOTED UNANIMOUSLY.

ARTICLE 30. To see if the Town of Lunenburg will vote to amend Section 8.4.2.1. of the Protective Bylaw by adding the following subparagraph:

8.4.2.1 (d) A development plan approved in accordance with this section shall be required before issuance of a building permit for child care facilities in a residential zoning district. Article 30 was Passed Over.

ARTICLE 31. To see if the Town will amend Section 8.4 of the Protective By-Law of the Town of Lunenburg by inserting in Section 8.4.5.1 v) the words "Review, Development and" be for the word "Construction" and by inserting the words "and Fee System: after the word "Procedures" and before the words "of the Lunenburg Planning Board" or act anything thereon. (Submitted by the Lunenburg Planning Board) VOTED UNANIMOUSLY.

ARTICLE 32. To see if the Town will vote to amend the General By-Laws of the Town of Lunenburg by adding thereto the following section to be numbered consecutively. (Submitted by Petition)

Section 1. *Prohibition Against Unleashed Dogs*
No person keeping, owning or having possession, charge, custody or control of any dog shall cause, permit, suffer or allow the dog to stray, run, be or go in any manner at large in or upon any public street, way, sidewalk, school yard or grounds, park, beach or private property of others without the express consent of the owner of such private property, except such dog that may be under control by means of a chain or leash, not longer than six feet in length.

Section 2. *Authority and Duties of Dog Officer*
Any dog found to be large in violation of this by-law shall be caught and confined by the dog officer, who shall notify forthwith the licensed owner or keeper of said dog. The owner or keeper of said dog shall have seven days from receipt of notice thereof to reclaim said dog from the dog officer. Return of the dog to the licensed owner or keeper shall be dependent on admission of ownership or the keeping of the dog, the assumption of responsibility thereof, and the payment of any fee or charges due for such confinement as provided by this by-law.

Section 3. *Fees for Dogs Confined*
The owner or keeper of any dog so confined by the dog officer, under the provisions of this by-law, shall be responsible for a fee of ten dollars ($10.00) per day for each day of confinement, for the costs of such care and maintenance of such dog. Any fees so collected shall be turned over to the Town, or take any action relative thereto. Article 32 was DEFEATED.

ARTICLE 33.(32a) To see if the Town will vote to amend the General By-Laws of the Town of Lunenburg by adding thereto the following section to be numbered consecutively. (Submitted by Petition)

Section 1. *Prohibition Against Unleashed Dogs*
No person keeping, owning or having possession, charge, custody or control of any dog shall cause, permit, suffer or allow the dog to stray, run, be or go in any manner at large in or upon any public beach or private beach without the express consent of the owner of such private beach except such dog that may be under control by means of a chain or leash, not longer than six feet in length.

Section 2. *Authority and Duties of Dog Officer*
Any dog found to be large in violation of this by-law shall be caught and confined by the dog officer, who shall notify forthwith the licensed owner or keeper of said dog. The owner or keeper of said dog shall have seven days from receipt of notice thereof to reclaim said dog from the dog officer. Return of the dog to the licensed owner or keeper shall be dependent on admission of ownership or the keeping of the dog, the assumption of responsibility thereof, and the payment of any fee or charges due for such confinement as provided by this by-law.

Section 3. *Fees for Dogs Confined*
The owner or keeper of any dog so confined by the dog officer, under the provisions of this by-law, shall be responsible for a fee of ten dollars ($10.00) per day for each day of confinement, for the costs of such care and maintenance of such dog. Any fees so collected shall be turned over to the Town, or take any action relative thereto. Article 33 was DEFEATED.

ARTICLE 34.(33) To see If the Town will amend the Protective By-law of the Town of Lunenburg to provide for child care facilities, as follows, or take any other action relative thereto:

Add a new Section 4.1.4.5. and renumber and title the present Section 4.1.4.5. as 4.1.5. Prohibited Uses, the new section to read:

Section 4.1.4.5. Child care facilities, as defined by Massachusetts General Laws Chapter 28A Section 9, as "Day Care Center" or "School Age Child Care Program" but not "Family Day Care Home" provided that:

a) If the proposed Day Care Facility requires four (4) or more parking spaces the site to be used shall be shown on a development plan prepared by the applicant and approved by the Planning Board in accordance with those parts of Section 8.4 deemed applicable by the Planning Board based on the scale of the application.

b) The lot area shall conform to the area requirements contained in Section 5.I or, if none is prescribed for the District in which it is located, or, if it is a legal nonconforming lot, the area shall be a minimum of twenty thousand (20,000) square feet.

c) The building used for the purpose conforms to all dimensional regulations contained in Section 5.0.,which are applicable in the District in which it is located and to all requirements of Section 6.0., pertaining to off-street parking and loading areas, lot monuments, plan, driveways and entrances, signs and performance standards and further provided that buildings, structures, driveways, walkways, parking areas and other impervious surfaces shall not cover more than twenty (20) percent of the total lot area on which the facility is located.

d) No building or structure shall exceed thirty-five (35) feet in height in Residence A, Residence B, Outlying, Recreation or Limited Business Districts and shall not exceed thirty-five (35) feet in height elsewhere unless shown on the Development Plan and approved by the Planning Board.

e) With the exception of a driveway and walkway, no required front yard shall be paved or used for the purposes of the child care facility.

f) Parking areas and play areas shall be located beyond the side and rear setback lines and shall be screened from abutting residences in the same manner as is required in the second sentence of 6.6.15.1

g) In the Residence A, Residence B, Outlying, Recreation and Limited Business Districts there shall be no structural or decorative alteration that will alter the residential character of an existing residential structure used for a child care center.

h) Any new or remodeled structure shall be designed to be compatible with the character of the neighborhood in which it is located.

I) If the proposed Day Care Facility requires four (4) parking places in addition to all requirements of Section 8.4:

1. A traffic impact statement form designated by the Planning Board, will be submitted to the Planning Board, who will determine whether a traffic study prepared by a registered engineer will be required.

2. The Planning Board shall be satisfied that there is safe access and egress to and from the site, as provided in Sections 6.0 and 8.4.

Add a new Section 6.1.1.8. and renumber the present 6.1.1.8. as 6.1.1.9.
The new section to read as follows:

6.1.1.8. Child Care Facilities: One parking space for each ten (10) children in attendance plus one (1) parking space for each person engaged onsite in the business of the facility at any one time.

Amend Section 4.2.2.1.c) to read "Private organized camp for children or adults."

And delete Section 4.4.3.6. and renumber Sections 4.4.3.7., 4.4.3.8. and 4.4.3.9. as 4.4.3.6.,4.4.3.7. and 4.4.3.8.
VOTED YES 117, NO 55 (115 needed for 2/3rds majority) Attorney General approved except that sub-section 4.1.4.5. (g) deleted and disapproved.

ARTICLE 35.(34) To see if the Town will vote to accept the several sums of money for perpetual care of various cemetery lots, approved by the cemetery commissioners as follows: Peter K. Sacksen, $200.00; Jeanne Dion, $150.00; Jacques Sidentopp, $100.00; Wayne Conrad, $400.00; Joanne Morley, $100.00; Charles Tibbets, $200.00; Ruth L. Popp, $100.00; Linde Sacksen, $100.00; John R. & Joan D. Dupre, $200.00; Ottilie Burpee, $200.00; John M. & Brenda L. Dupre, $200.00; Norman R. & Louise A. Membrino, $200.00; Joane Simons Fahey Turner, $100.00; Albert Kolb, $200.00; Verner & Jean Anderson, $100.00; Albert M. & Marcia L. Membrino, $200.00; Eugene J. & Rita M. Bergeron, $200.00; Ruth Anderson, $200.00; Gerard D. & Dianne H. Wilkins, $200.00; Michael A. Yebba, $200.00; or act anything thereon. (Submitted by Cemetery Commission) Article 35 was Passed Over.

ARTICLE 36.(35) To see if the Town will vote to discontinue 90 feet of Cushing Lane as an accepted Town way at the end of new pavement at Station 7+80 - 9+00 as noted on the Town Layout according to plans on file with the Planning Board, or act anything thereon. (Submitted by Selectmen) VOTED UNANIMOUSLY.

ARTICLE 37.(36) To see if the Town will vote to accept as and for a public Town way, the newly constructed Williams Drive under Sub-division Control Law, Chapter 41 of the M.G.L. Williams Drive is located off Island Road at Station 74 - 2200W, consisting of l.15 acres of road way including cul-de-sac, with 90' of frontage, or act anything thereon. VOTED UNANIMOUSLY.

ARTICLE 38.(37) To see if the Town will vote to change the position of Tree Warden from an elected to an appointed position, for a term not to exceed three years, or act anything thereon. (Submitted by Selectmen) VOTED UNANIMOUSLY.

ARTICLE 39.(38) To see if the Town will vote to accept the provisions of Section 12 of Chapter 188 of the Acts of 1985, the School Improvement Act, in relation to the Equal Educational Opportunity Grant for FY96 for the Montachusett Regional Vocational Technical School, or act anything thereon. (Submitted by Selectmen) VOTED UNANIMOUSLY.

ARTICLE 40.(39) To see if the Town will vote to continue participation in the Central Massachusetts Mosquito Control Project, or act anything thereon. (Submitted by Selectmen) (Finance Committee recommends disapproval) VOTED To continue participation.

ARTICLE 41.(40) To see if the Town will vote to authorize the Selectmen to choose a Director in accordance with M.G.L. Chapter 128, or act anything thereon. (Submitted by Selectmen) VOTED UNANIMOUSLY.
