

Lunenburg Historical Commission 6/4/24

The Lunenburg Historical Commission met for the month of June at the Ritter building. Members McGrath, Lakso, Sanderson and Boussom were present. With a quorum, the meeting began at 7:00PM.

A motion was made and passed to accept the minutes for April 4th, April 22nd, April 25th, and May 2nd, all of 2024.

For public comment, resident Ana Lockwood requested that we consider beginning to record each meeting. This is to be discussed at the next meeting.

An update on the Town survey: there are approximately 85 sites, and the consultant is asking for a target list of the K-houses as well as additional sites. A list of most of the K houses exists from 1996, but it requires updating as well as reorganizing to an alphanumeric pdf file.

Additionally, the audit for the survey has been submitted to the town manager.

Returning to Marshall Park, the plan is still to add the entire park to the survey as a site.

Additional public comment from Dave Passios claims that the cave is not in the direct vicinity of construction for Phase I of the park project, so it should hopefully be safe from damage during renovation.

There are no further updates on the Hometown Heroes project; next step is to contact the town manager about the project.

The commission's budget needs to be used by July 9th, so the plan is to use the funds towards historical markers.

The first report for the demo delay of 763 Mass Ave has gone past due as of June 1st. It was suggested by the building inspector that the current lot be divided, to still provide land for development, while also preserving the historical structure.

The Arnold Litch cemetery is still tied up in legal troubles, it is unsure how or when the problem will be resolved at the moment.

The historic marker at the end of Fish street requires trimming and an epoxy repair to the stone. With no further business, the meeting adjourned at 7:29.
