

Lunenburg Historical Commission November 2025

The Lunenburg Historical Commission met November 18th at the Ritter building. The meeting began at 7:00PM. Members McGrath, Lakso, Sanderson, and Boussom were in attendance. Minutes for the October 14th meeting and the October 20th joint meeting with the APDC were both reviewed and accepted.

Correspondence from a member of the Templeton Historical commission inquired about finding a home for a document from Lunenburg from 1776. A response was sent but up until now there has been no further contact.

The Historical Commission/APDC merger was voted down 3-2 by the selectboard. It was found that the Lunenburg Republican Town Committee had been pushing an information campaign opposing the merger, claiming that it was both "outrageous and dishonest" and viewed as government takeover.

A question from David Dorrin of the Cemetery commission asked if the cemeteries in town were included in the national historic registry. At the moment, they are not, but it was advised that they should be surveyed to qualify for the registry.

The church steeple at 50 Main Street continues to deteriorate, and may soon qualify for Demo by neglect.

68 Elm st and corner of Whiting and Lancaster also both continue to deteriorate.

With no further business, the meeting adjourned at 7:31PM.
