

Lunenburg Historical Commission February 2026

The Lunenburg Historical Commission met February 5th at the Ritter building. The meeting began at 7:03 PM with members McGrath, Lakso, and Boussom in attendance.

Minutes from the January meeting were reviewed and accepted.

Correspondence from the building inspector confirmed that there has not yet been a demolition permit filed for 922 Flat Hill Road.

Other correspondence from Bill Tyler asked about whether or not the caves at Marshall park will be included in the town survey.

The plan for that is to review the park in the spring with Brian Knight.

Regarding the town survey, it was noted that some information was found to be incorrect, so it is important that we review it to check for any discrepancies.

With no further business, the meeting adjourned at 7:10 PM
