

Lunenburg Historical Commission March 2026

The Lunenburg Historical commission met March 10th at the Ritter Building. Members Richard McGrath, Bill Lakso, and Kevin Boussom were in attendance. The meeting began at 7:00 PM. A demo permit has been approved for 922 Flat Hill Rd after it was found to have no historical significance.

Todd Holman of the DPW plans to contact the landowner of which the Arnold Litch cemetery resides, in hopes that we can come to an agreement to preserve the site.

There are also plans to soon begin work restoring the headstones and walls at the Goodrich Cemetery, as well as addressing the table stones and hanging tree limbs at the South Cemetery.

DPW, APDC, and parks commission need to be contacted to address the deteriorating walls of the town pound.

The commission also plans to begin work on the historic site markers this spring, so we will work on finalizing a list of the most important sites.

In other news, the MA historic commission just announced the 32nd annual Mass Preservation Project Fund.

With no further business, the meeting adjourned at 7:17 PM
